

HOLD SUSPECTS IN COLLINGS CASE

LEGION TO REQUEST REFERENDUM ON DRY LAW AT CONVENTION

Resubmission To States
Sought; Stevens To
Be Commander

(Copyrighted, 1931, By International
News Service.)

DETROIT, Sept. 24.—The American Legion today will denounce the eighteenth amendment, calling for its resubmission by congress to the states for a referendum, reject the cash bonus plan unless a miracle occurs, and then elect Henry L. Stevens, youthful North Carolina attorney, as its new national commander on the first ballot.

This ambitious program confronted the Legion convention after a hectic series of all-night conferences, caucuses and confabs. The outlook, as revealed by an International News Service survey, was: Prohibition—Overwhelming approval of the resolution, declaring the eighteenth amendment has "created a condition endangering respect for law and the security of American institutions," and putting the great veterans' organization on record as favoring "substitution by congress of the repeal or modification of the present prohibition laws to the several states, with a request that each state submit the question to the voters thereof."

Cash payment of bonus.—Defeat of cash demand by a majority of approximately 150 votes, unless the convention is stamped by frenzied oratory into rebuking President Hoover. An early morning poll by International News Service shows an approximate vote of 77 to 635 against the cash demand. Both sides were claiming victory.

National commander.—Election of Henry L. Stevens, of North Carolina, on the first ballot assured, even though his opposition staged the bitterest fight in all the history of the Legion.

The action of the Legion in assailing the eighteenth amendment will be precedent shattering, since it will throw the Legion into the fight to modify prohibition. Before it acts, the Legion will debate the wet and dry question to its heart's content, smashing all its traditions, since the subject was barred from all preceding conventions as a political issue beyond the scope of its constitutional activities.

The wets will win, but they were maneuvered into accepting a mere declaration in favor of a referendum when the convention might go on record as favoring either repeal or legalization of beer. Indeed, one good orator may yet upset the plans of convention leaders and turn the referendum recommendation into a vigorous, vibrant demand for repeal of the eighteenth amendment.

A detailed history of the resolutions committee's deliberations may reveal a new problem which the national political parties, as well as wet and dry organizations, will have to face in the future.

This Legion convention found the wets presenting a demoralized and badly split front. They couldn't agree on what they wanted, being divided over repeal, modification, legalized beer, and referendum. The wets merely stood by letting the wets on the committee ballot until every suggestion was beaten except the referendum. Then, the wets stepped in and helped draft the resolution to be submitted to the convention.

This may all be overthrown on the convention floor. A forceful

AUTO ENTERS PROBE OF DENTIST'S DEATH

MANSFIELD, O., Sept. 24.—Detectives trying to solve the six-day-old murder of Dr. Harry G. Roby, Mansfield dentist, today investigated a report that an automobile bearing foreign license plates was seen in the vicinity of Roby's home the night he was slain.

That was the only new clue authorities were known to possess, and they admitted it might be of no importance. With the mystery almost a week old, officials apparently had made little progress in their search for Roby's slayer.

A purported letter of warning to Roby, which officials had not been able to find, and his reported companionship with a blond woman were the only other circumstances surrounding the case known to police, it was said.

PUBLISHER HURT

SPRINGFIELD, O., Sept. 24.—Edgar L. Morris, Springfield newspaper publisher, was recovering today from injuries received yesterday when he was struck in the eye by a golf ball at the Springfield Country Club course. The ball, which rebounded from a tree, shattered the publisher's eyeglasses.

EDISON IMPROVES

WEST ORANGE, N. J., Sept. 24.—Thomas A. Edison continues to improve, was the word given out at his West Orange home today, despite rumors circulated yesterday that the aged inventor had suffered a relapse.

JAPAN PREPARES STATEMENT TO DEFEND ATTACK IN MANCHURIA

Amplifies Message To League Of Nations Council;
Bandit Activities Continue; Japan
Denies Massacre Of 300

TOKYO, Sept. 24.—The text of a statement to the world powers, setting forth Japan's position with regard to the conflict in Manchuria, was approved by the cabinet at its regular session today.

The statement was expected to amplify the communique dispatched to M. Yoshisawa, Japanese delegate to the League of Nations council, and read before a secret session of the council yesterday.

With negotiations for settlement of the dispute proceeding satisfactorily, fears of a new Sino-Japanese clash in Kirin City were lessened when Chinese troops delivered thousands of rifles and 10,000 rounds of ammunition as well as machine guns and cannons to the Japanese commanders.

Meanwhile, bandit activities in the occupied area continued.

Dirigible Is Important Stride In U. S. Aviation

Secretary Of Navy, In Exclusive Article, Says
Nation In First Place With Launching Of
Navy Air Liner Akron Wednesday

(Editor's Note.—Mr. Charles Francis Adams, secretary of the Navy, who has written the following article exclusively for International News Service, was an official observer on the first flight of the new navy dirigible, the Akron.)

By CHARLES FRANCIS ADAMS
Secretary of the Navy
(Written Exclusively for, and
Copyrighted, 1931, by I. N. S.)

KRON, O., Sept. 24.—America has taken an important stride forward in aviation. With the first flight of the new navy dirigible, the Akron, these United States have forged into first place in the field of lighter-than-air craft.

The Akron has added materially to the means of national defense. As I sat with my colleagues in the cabin of this great airship on its initial flight I marveled at the sturdiness and safety of the craft, and the conveniences that have been made possible through the energetic work of our engineers and scientists.

The material used in this craft, manufactured to perfection for the duty it must perform, is a great tribute to itself to the skill and ability of American workmen. The ship has been carefully constructed, particularly to a view for safety.

All of us aboard were actually surprised with the steadiness with which this great ship moved. She fairly flaunted the opposing winds and air currents as she moved serenely through the air on her journey over Akron and Cleveland.

The various maneuvers which the Akron was sent gave her an excellent test to show her ability as a ship which will mean much to America in our naval system of national defense.

The Akron is built to carry four or five fighting planes and with these, which can be readily launched from its interior, it will be well-defended from the attacks of other aircraft.

The new Zeppelin can be used as a scout at sea which will prove a valuable asset to the navy's fighting fleet of ships and planes. She will be able to survey many times the territory that can be covered by a plane or a sea cruiser.

I would term the Akron's first flight a complete success. The navy department is more than satisfied with the results of this initial journey which has placed us first in the lighter-than-air field.

WAGE CUTTING MOVE
ALARMS PRESIDENT
AND HIS ADVISERS

No Action Planned; Think
Railroads To Make
Cuts Next

WASHINGTON, Sept. 24.—The alacrity with which other large industries have followed the lead of "big steel" and announced wage cuts averaging 10 per cent dismayed President Hoover and his advisors today. But no administration move to check or to offset the wage trend appeared in the offing.

Inquiries concerning possible governmental action only met with statements deploping the action of the employers, and ending up with: "What can we do?"

It is frankly anticipated in Washington that the railroads will be the next to follow the lower wage trend.

The carriers now have pending before the interstate commerce commission a petition for a 15 per cent horizontal increase in rates, which very few anticipate is going to be granted. Unless it is granted, the expectation prevails that the railroads are going to slash the wages of ordinary labor. Even if the commission grants a 5 per cent increase in rates, which many believe possible, the feeling is prevalent that it will not deter the carriers from reducing their operating expenses via the wage cut route.

What will happen if and when the railroads follow the example of the steel, automotive, rubber and other industries is a matter of considerable conjecture and little real knowledge on the part of administration officials. They are frankly fearful of industrial disturbances being added to what already promises to be an extremely difficult winter.

Railroad labor is pretty thoroughly organized and conscious of its power. This has been amply demonstrated many times in the past fifteen years. In any event, it is not as helpless as labor in the steel industry, which despite prodigious efforts of the A. F. of L. has remained largely unorganized and thus unable to defend itself by concerted action.

In his bitter statement of last night, uttered only after careful deliberation, William Green, president of the American Federation, suggested that the phrase "there will be hell to pay" might logically be taken as the outcome of widespread wage cutting.

THIS IS BETTER

COLUMBUS, O., Sept. 24.—Cooler weather which rode into the state on the tail of a heavy rainfall made it "more like living" today. Weathermen predicted that the break in the heat wave was permanent and that fair and cooler weather is on tap for a while.

AKRON MAKES FIRST FLIGHT WEDNESDAY AS TRIAL SUCCEEDS

Experts See Commercial
Future For Dirigible
Of This Type

AKRON, O., Sept. 24.—Unanimous prediction from authorities in lighter-than-air craft that ships of the size and construction of the United States airship Akron would soon become a recognized means of commercial transportation today followed the successful maiden voyage of the Navy's new queen of the air.

Defying somewhat threatening weather conditions at the start, the Akron, world's largest dirigible, made a flight of nearly four hours over her home city and Cleveland with 133 persons aboard, the largest group ever to fly in an American Zeppelin.

After hugging close to her gigantic airdock more than two hours, Captain Charles E. Rosendahl pointed the nose of the huge, silver hulk northward toward Cleveland where the ship circled the business district before returning to her dock. Fully an hour was spent in landing the bulky craft in the gathering dusk. Twice the ship nosed in but was unable to connect with her massive mooring mast.

Possibility that the second test flight of the giant ship will be held this week was seen as Navy officials declared the first trip an unqualified success and announced the next voyage would be held as soon as possible.

"There is every reason to believe this type of ship will be a most successful one and will pave the way for commercial lighter-than-air transportation," Skipper Rosendahl declared as he stepped from the narrow hatch at the bottom of the control at the end of the flight.

Lending support to Rosendahl's statement was the opinion of Rear Admiral William A. Moffett, chief of the navy bureau of aeronautics, that "I am sure she will demonstrate the great value of air ships for commercial purposes." Practically, the Akron returned to the dirigible field.

Paul W. Litchfield, president of Goodyear-Zeppelin corporation, the builders, saw the Akron's successful flight as the "beginning of the realization of our dreams to establish commercial lighter-than-air transportation on a scheduled basis."

Others aboard the Akron who joined with these aeronautical experts in hailing the Akron's successful flight were Secretary of the Navy Charles Francis Adams, Assistant Secretary of the Navy in charge of aeronautics David S. Ingalls, Rear Admiral G. C. Day, president of the naval board of inspection and survey, and Karl Arnstein, chief engineer for Goodyear-Zeppelin and noted engineer.

More than 110,000 persons swarmed the hillsides surrounding the fenced off airport to see the giant Akron take the air for the first time. As the silver bag shot upward, a deafening cheer went up from this enthusiastic throng which could be heard above the roar of the motors at the airdock, half a mile away.

Four more test flights consuming at least a total of another 71 hours in the air must be held before the navy will accept this large dirigible for the American fleet. Each future flight will be for a specific purpose such as testing speeds, turning and lifting ability, endurance and the testing of a myriad of minor parts on the ship.

FOUR-YEAR-OLD KILLS BROTHER

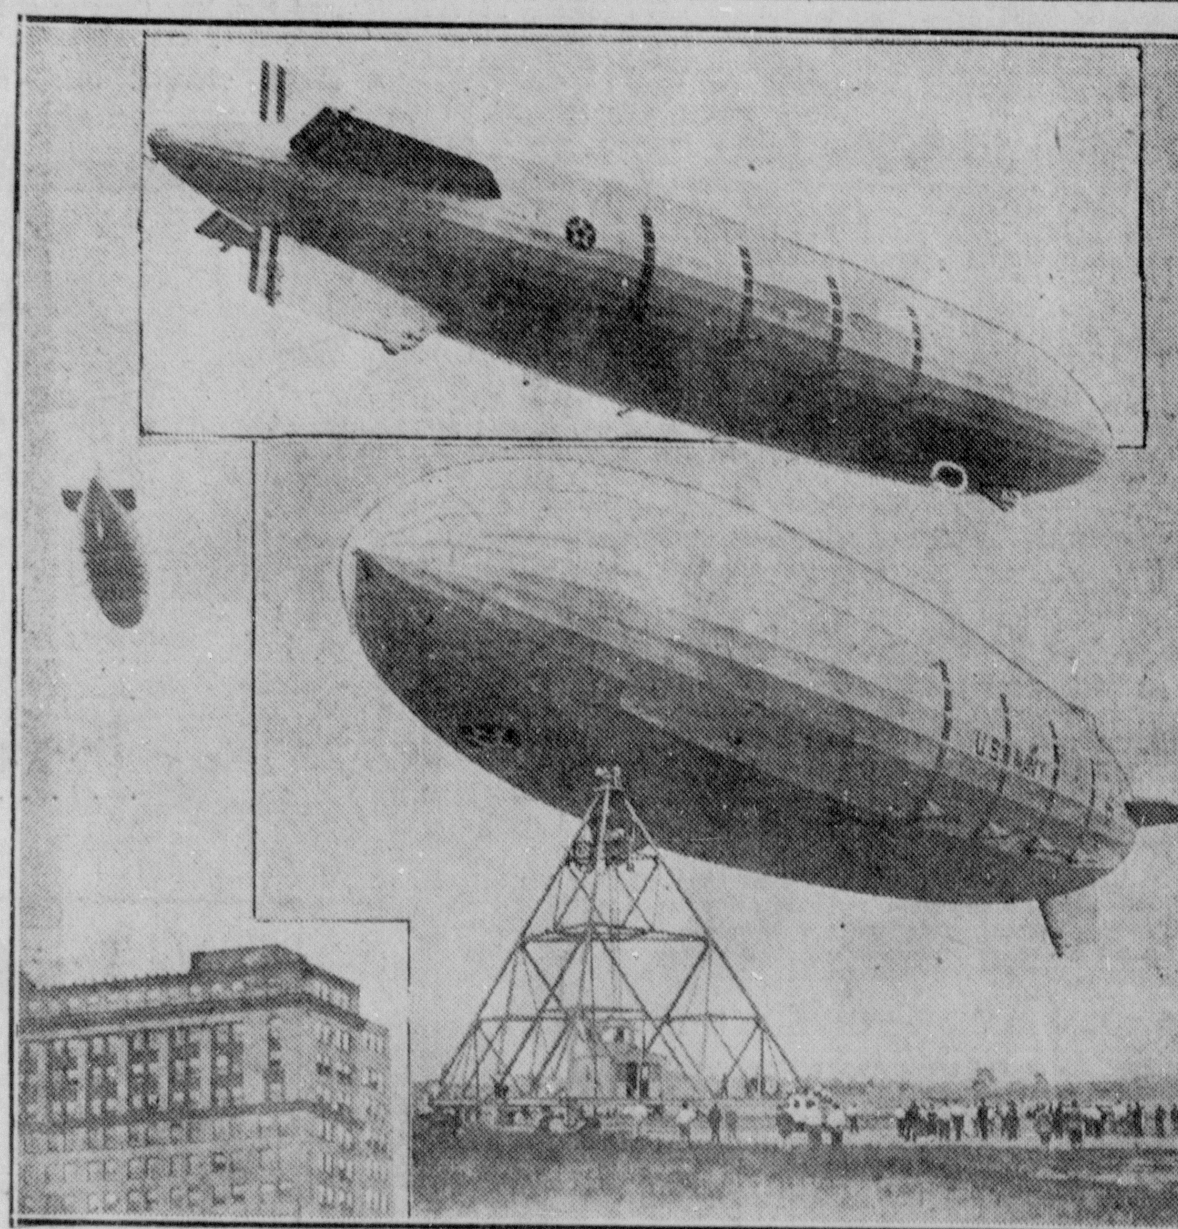

GREENVILLE, O., Sept. 24.—Four-year-old Richard McNutt today had accidentally shot and killed his two-year-old brother, William, with a rifle he found in a neighbor's automobile.

Richard found the gun while he and his brother were at play. William died while being rushed to a hospital.

WILL NAME JUDGE

COLUMBUS, O., Sept. 24.—A successor to Judge Homer Z. Bostwick, ousted from office by a special court which found him guilty of misconduct in office and gross immorality, will probably be named by Governor George White not later than Saturday, it was indicated today.

VIEWS OF GIANT DIRIGIBLE ON FIRST FLIGHT

Three views of the U. S. S. Akron, giant dirigible built for the navy, as she soared over northern Ohio on her first test flight with a passenger list and crew totalling 133 persons. To the right the great ship is seen breaking away from her mooring mast at the Akron airship dock, and left, as she appeared over the top of a Cleveland skyscraper a short time later. Top view is a close-up in the air.

GENE TUNNEY MAKES LITERARY DEBUT IN SERIES ON SOVIETS

Magazine Article Flays
Atheism Of Russian
Rule

NEW YORK, Sept. 24.—Gene Tunney, former heavyweight champion of the world, threw his hat into the literary ring today when he first of a series of articles by him appeared in Collier's weekly. Much to the surprise of the sporting world Tunney started his literary career with a serious treatise on Soviet rule in Russia.

The former ruler of the cauliflower industry, spending his vacation in Maine, was reached by phone and asked bluntly if his future writing activities were to be confined to economic, social and political subjects.

In reply to a question, "Have you abandoned boxing as a subject for discussion?" Tunney answered with a laugh that he was already at work on a series of articles dealing with his activities in the squared circle. One of these will break his long silence on the matter of the famous "long count" in his second fight with Jack Dempsey.

After making it plain that he had no intention of completely abandoning sports as a topic in his writing Tunney explained why he had begun what promises to be an interesting writing career, with an article on Russia.

"Frankly," he said, "the subject of Russia is one which is uppermost in my mind. I came out of Russia where I spent some time this summer with many of my opinions completely overthrown."

The things that intrigued and in many ways aroused his indignation were what he called "bolshevism, intolerance, and atheism."

Yet Tunney has no blanket condemnation of Russia. He still thinks that America has much to learn from the Soviet.

"Somewhere between what America is aiming at and the Russian goal is the road our children will take," he said. "Surely Christianity will not be destroyed by atheism nor will western civilization succumb to robots. But I see our government of the future borrowing liberally from the Soviets' communism."

"I believe," Tunney continued, "that after Russia has become politically secure and sufficiently industrialized to be economically independent there will again arise Tolstois, Chekovs and Dostoevskis and other independent thinkers who will oppose the industrial semiautism now prevailing just as the older masters fought Tsarism and slavery."

VETERANS AND GOVERNMENT HAVE BETTER UNDERSTANDING

By FLOYD GIBBONS,
Journalist and Radio Reporter
(Copyright, 1931, by International
News Service.)

DETROIT, Sept. 24.—Hello everybody.

Delegates to the American Legion Convention, who begin to file out of Detroit tonight will have accomplished an important thing. The convention has been no peace conference with the holders of the nation's purse strings, but a better understanding between the government and the veterans has been founded.

Claims of the faction of Legionnaires who thought they deserve

immediate financial aid in this period of stress, have been admirably presented by accomplished orators. No raucous voice has been raised in demands that had no foundation of reason. No oratorical fireworks. Advocates of a revision of the bonus payments stated unemployment facts as six hundred Legion posts had found them, depleted from the guardians of public funds were equally calm. It is like a betterly tough law-suit being settled out of court with everybody shaking hands—for the period of this emergency at least.

The veterans pointed out that 710,000 of their number are in need and have no other agency to turn to except the federal government. The government agents showed that two and one half million dollars are being paid out daily to men who served their country. With eight hundred million dollars in loans on adjusted service certificates, two billions have been spent since last March.

The ancient Greek invented the bonus for soldiers. Alexander the Great, with his conquering army to pay off, probably considered it a hopeless job. The United States, at the end of the Civil War, thought itself faced with an unsolvable pension problem. There were four hundred thousand veterans in the Grand Army of the Republic, twenty-five years after the Civil War. Now there are more than twice that number in the American Legion alone.

The convention closing today has lifted the boys of 1917 and 1918 out of the class of mere dependents. They have been helping themselves. Helping to find or create work for their own members. Helping in the peace time crises of their own communities.

Speeches such as those of George L. Berry, of Tennessee, Howard P. Savage, of Chicago, General Frank T. Hines, administrator of veterans' affairs, and many other leaders, voice the future policy of the Legion. It is going to consider itself in full partnership with the government.

Calling Cooper "Ohio's hardest working governor," the Kenton News-Republican, in a front-page editorial, declared that "the call is loudly and distinctly for Myers Y. Cooper—a man who has proved he can govern and will govern well."

KENTON, O., Sept. 24.—The first public call to former Gov. Myers Y. Cooper, urging him to be a candidate for reelection in 1932, circulated through the state today.

Police said they were aided in the solution of the murder by E. C. Fuller, superintendent of identification at the Ohio State Reformatory at Mansfield. A convict at the institution, it was said, had told Fuller of another inmate who had been offered a bribe of \$50 to aid in the murder of the Cleveland woman.

Presented with the evidence of the convict, Stern and Jump allegedly confessed, police said.

After making it plain that he had no intention of completely abandoning sports as a topic in his writing Tunney explained why he had begun what promises to be an interesting writing career, with an article on Russia.

"Frankly," he said, "the subject of Russia is one which is uppermost in my mind. I came out of Russia where I spent some time this summer with many of my opinions completely overthrown."

The things that intrigued and in many ways aroused his indignation were what he called "bolshevism, intolerance, and atheism."

Yet Tunney has no blanket condemnation of Russia. He still thinks that America has much to learn from the Soviet.

Arrested last night in Long Island City at the home of Quinn's brother.

Mrs. Collings spent most of yesterday with Munder and De Martini visiting various points on the sound in a boat, in an effort to clear up such parts of her story as still remain obscure.

In 1918 Johnson was reported as dead by the war department. Three years ago, with the aid of Lieut. Paul Jackson, a Newark soldier, Johnson officially established the fact that he was alive. The confusion in names resulted when another soldier died in a hospital from which Johnson disappeared. It later was shown he ran toward the trenches while in a delirium.

Johnson's suicide was said to have been caused by ill health he suffered after having been gassed during the war.

TWO QUESTIONED IN PIRACY PROBE DENY GUILT; ONE INSANE

Victim's Wife Will View
Pair; Attorney
Optimistic

MINEOLA, N. Y., Sept. 24.—Two men who are said to resemble closely the assailants who beat Benjamin P. Collings to death aboard his cruiser Penguin were being detained today in the county jail here.

District Attorney Alexander Blue, of Suffolk County, who questioned the men last night, seemed hopeful today that the two prisoners might furnish a clue to the mystery which has baffled police of two states.

"It looks very good," he said early today in answer to a question about how his investigation of the case was progressing. He indicated that Mrs. Collings may be brought from her Stamford, Conn., home today to confront the two men.

The two men denied today that they had had anything to do with the murder. Both offered alibis to account for their presence on the night of Sept. 9, when the crime was committed.

One of the two being held is Timothy J. Quinn, 43, a powerfully built man who has at various times been confined in three asylums. He has been questioned three times by the police in connection with murder cases, it was said. Quinn was formerly a sailor and once owned a canoe, it was said today.

The other man was described as about 24 years old, but his name was withheld. It was said, however, that the two resembled the two murderers of Collings, as they were described by his wife.

Quinn and his companion were arrested last night in Long Island City at the home of Quinn's brother.

YOUNG INVENTOR IS CREDITED WITH AID TO NEW TELEVISION

BUZZARDS BAY, Mass. Sept. 24—A remarkable achievement in radio engineering, one which it is predicted will bring television to its present status to a great enterprise is in prospect here with Harry Selfredge, 28-year old Littleton scientist, holder and inventor of the famous-to-be feat.

So remarkable was Selfredge's invention that following a private demonstration at which several nationally known radio engineers were present a \$100,000 offer was made the young scientist for his plans. He refused the offer pending further improvement of his invention.

Spurred on by his present success, Selfredge will carry on further experiments with his apparatus on Cape Cod which he calls an ideal proving ground for any sort of radio transmitting because of the static conditions found there. He wants to prove that his set can overcome most unfavorable conditions.

Explaining his apparatus, the young inventor pointed out that it is revolutionary in character and used without Neon tubes, scanning discs, and other numerous parts which are one of the chief drawbacks of present television broadcasts. It is capable, he says, of transmitting scenes half a mile away.

The pictures released a half mile distant came in during the experiment on the receiving apparatus as if projected from a movie projection machine. The present defects of television are said to be centered in the Neon Glow tube tubes used in broadcasting pictures and in the shadows and deformities of pictures received by means of a scanning disc. In the latter case, dirt clogs the disc holes and distort images.

Selfredge's experiments are carried on at much lower wave lengths than now used for picture transmission. He plans to experiment with ultra-short waves of less than one meter to broaden the scope and to avoid conflict of images being broadcast simultaneously on neighboring waves.

JUDGE SOLVED PROBLEM
ALAMOSA, Colo. Sept. 24—Both Mr. and Mrs. Pablo Martinez will serve sentences of sixty days each in the county jail here, and the need of their six children for parental attention will not interfere. Both were convicted of selling liquor. In sentencing them the problem of who would take care of the Martinez children puzzled the judge. He finally hit upon the expedient of permitting Mrs. Martinez to serve out her sentence first, while Pablo tends the children. When her term is ended she will return home and care for the young ones while Pablo serves his time.

The Flower Parade

Written for Central Press
By DR. KARL F. KELLERMAN
Bureau of Plant Industry
U. S. Department of Agriculture

DIVIDING ORIENTAL POPPIES

If you have not already done so, now is an excellent time to divide the roots of your Oriental poppies to increase your supply of this flower, horticulturists of the Bureau of Plant Industry advise.

Handle the poppy roots carefully to make sure of the best results. Oriental poppies are ready for division as soon as the leaves die and the plants become dormant.

If your poppies are not yet dormant, here is a suggestion: Mark now the ones you plan to divide. If you do not do this there is a chance that the dead leaves may be raked away and you will be uncertain of the location of your poppies when you get ready to divide them.

There are two general methods of dividing the poppy roots. Sometimes the roots naturally develop several crowns each. In such cases it is easy to divide them, pulling the crowns apart and then slicing the root sections for each with a knife. Ordinarily, however, there is only one crown. Then the usual plan is to cut the root crosswise into several sections. Each of these sections will then become the source of another poppy plant.

In the northern part of the country, after the roots are divided they

are often placed in sand in a cold frame and either left to grow there the next spring or else they are planted in the flower garden in the spring. They are not likely to make a heavy growth the first year and for that reason may be left in the cold frame until the following fall for the final transplanting.

In the south the roots may be set out in the fall. They will make a slight growth the same season and be ready for very early growth the following spring.

SPRING VALLEY

Mrs. Kate Boyce and daughters of Dayton spent the week end with Mr. and Mrs. G. V. Sims. They attended the home coming at Mt. Holly Sunday.

Mr. and Mrs. J. T. Walton and family and Mrs. Dorothy Leasher spent Sunday with Mr. and Mrs. Lee Peterson and family near Cedarville.

Mrs. Minnie Wooley entertained at Sunday dinner Mr. and Mrs. Roy Haines and family and Mrs. Elizabeth Haines in honor of little Jack Haines' sixth birthday.

Mrs. Kate Evans returned to her home here Saturday evening after spending a week in Waynesville.

The members of the Miers family with their families of Clinton County and Mrs. Wilson and son of Winchester, Virginia, met at the home of Fremont Miers near

Spring Valley to celebrate his seventieth birthday Thursday, September 17. The three cousins are the only descendants remaining of the Miers family who came from Shenandoah Valley, about the year 1800.

Mrs. Nettie Fulkerson and Mr. John Walton attended the funeral services of Mrs. John Barrett at her home in Indianapolis, Ind., Monday. The Barrett family lived here several years ago. Mrs. Barrett, before her marriage taught in our public school.

Mr. and Mrs. Forest Hough and children of Waynesville moved Thursday into the Dall Solsbury property on W. Main St.

Friends and relatives here received word of the death of Mrs. Mary Ennis of Van Wert, another former resident of Spring Valley. She was buried at Van Wert.

Mr. and Mrs. James Curlette and family of Xenia were week-end guests of Mrs. Emma Simson and son.

Mr. and Mrs. Max Compton and children were Dayton visitors Saturday.

A playlet "Jealous, Certainly

Not" will be given in the Community Room Saturday night, Sept. 26. Everyone invited.

Mr. and Mrs. J. P. Kreitzer and Mr. and Mrs. George H. Smith and son returned home Sunday from a ten days fishing trip in Canada.

City Manager and Mrs. M. C. Smith and granddaughter and Miss Emma Dods of Xenia, were Sunday guests of Mr. and Mrs. J. M. Smith and family.

Miss Mary Mangan of Xenia spent Thursday night with her cousin, Miss Helen Kyne.

Jean and Phyllis Compton spent Thursday evening with Colleen Kyne.

Mr. and Mrs. Fred Carter and son visited Mr. and Mrs. George Benson Saturday. Visitors on Sunday were, Mr. and Mrs. Will Bootes and daughter and Mr. and Mrs. Xella and baby.

Mr. and Mrs. Victor Darnell of Dayton, were Sunday guests of Mrs. Jane Hood and family.

Class 2 of the Friends Sunday School met at the home of Mrs. Arch Copsey Thursday afternoon. After the business session a social

time was enjoyed. Later a delicious covered dish supper was served. The hostesses were Mrs. Arch Copsey, Mrs. Dar Walton, Mrs. Melbie Benson and Mrs. Carrie Bagford.

Mrs. Frank Thompson died at her home near Mt. Holly Sunday night. Funeral services were held at the Friends Church Thursday afternoon with burial at Spring Valley.

COTTON CROP IN MEXICO
TORREON, Mexico, Sept. 24—The cotton crop in the Laguna district, heart of Mexico's cotton belt, will reach a total value of nearly 50,000,000 pesos this season. Abundant rains insured a much larger crop than expected. Picking has already begun and will continue until November.

D. A. R. Members Attend District Meeting

ONE hundred and forty members of the southwest district of the Daughters of the American Revolution of Ohio, which includes twenty-eight chapters, attended a district meeting at the United Presbyterian Church in Cedarville Wednesday. Members of Cedar Cliff Chapter were hostesses for the occasion.

The meeting opened at 10 a. m. and Mrs. Frank Creswell, regent of Cedar Cliff Chapter, extended greetings to the group. Roll call was answered with greetings from each chapter of the district represented at the meeting. The entire session was devoted to reports of the outline of the work of the D. A. R. for the coming year as presented by various national and state chairmen. Mrs. Charles A. Meyers, Terrace Park, Cincinnati, state chair-

ENTERTAINING PROGRAM PRESENTED AT MEETING

An entertaining program was presented by several of the members when the Women's Missionary Society of the Friends Church met at the home of Mrs. Ralph Heaton, S. Detroit St., Wednesday afternoon. Twenty-seven members and guests were present.

Mrs. Cora Davis conducted the devotional period and a chapter from the study book, "A Cloud of Witnesses," was reviewed by Mrs. Fred Ervin. Mrs. Davis read a tribute to the life of Evangeline Ream written by the board of the Friends Rescue Home and a reading, "Team Work," was given by Mrs. W. G. Horner. Mrs. Richard McClelland presented a short musical program.

Mrs. S. Russell Burkett, wife of the pastor of the church, who is moving soon to Fountain City, Ind., was presented an array of gifts by the guests. Later a refreshment course was served by Mrs. Heaton assisted by Mrs. Floyd Anderson and Mrs. Carlton Anderson.

FAREWELL DINNER BRIDGE IS ENJOYED

For the pleasure of Miss Julia Averell, cataloguer at the Greene County District Library who is leaving for Mansfield October 1, Miss Katherine Shorey, librarian, entertained a group of Miss Averell's friends at a dinner bridge at the Iron Lantern Wednesday evening.

A three course dinner was enjoyed and later three tables of bridge were in play. Prizes were won by Mrs. P. H. Flynn and Miss Oliver Allen and Miss Averell was presented a guest prize.

MISSIONARY SOCIETY TO HAVE LUNCHEON

The Women's Missionary Society of the United Presbyterian Church will have a luncheon meeting at the home of Mrs. Charles Kinsey, Jacoby Road, Friday. Luncheon will be served at 1 p. m. with Mrs. O. A. Spahr in charge. Persons attending are asked to bring their own china and silver.

The program following the luncheon will be in charge of Mrs. Robert H. Kingsbury and Miss Jean B. Elwell. Anyone desiring transportation to the Kinsey home is asked to notify Mrs. O. M. Whittington.

GARDEN PARTY IS SUCCESS WEDNESDAY

Despite threatening weather earlier in the day the garden party sponsored by St. Bridget Church at the Lampert golf course, Dayton Ave., Wednesday evening was a decided success. The party is to be repeated there Thursday evening. Proceeds from the affair are to be added to the fund for the erection of a new church.

"I'm fussy about my hands"

So I always wash dishes with Chipso

COARSE looking HANDS Certainly DON'T help Out in SOCIETY

So I do my DISHES with the NEW CHIPSO

Those WONDERFUL SUDS Keep my CUTICLE So SMOOTH and SOFT

You OUGHT to SEE How BEAUTIFULLY CHIPSO washes SILKS, too. It's just as GOOD As COSTLY SOAPS To keep COLORS BRIGHT

Why don't you TRY THE NEW CHIPSO I like the GRANULES But CHIPSO comes in INSTANT-SUDSING FLAKES, too.

ENTERTAINS GUESTS AT INFORMAL TEA

Mrs. W. G. Harrington and daughter, Miss Ethel Harrington, Kingston, N. Y., former Xenians, were guests of honor at an informal tea at the home of Mrs. W. Crawford Craig, N. Galloway St., Wednesday afternoon. The guests numbered eighteen women who were intimate friends of the guests of honor during their residence in Xenia several years ago. An informal social time was enjoyed during the afternoon.

Reorganization of the choir of the First Lutheran Church will take place at a meeting at the home of Miss Mary Maxwell, 111 Steuben Road, Friday evening at 7:30 o'clock. Any one interested in singing with this choir is invited to the meeting. A social hour will be enjoyed later in the evening.

Miss Frances Straley, daughter of Mr. and Mrs. Herman Straley, near Cedarville, has enrolled in the freshman class of Wittenberg College, Springfield.

Mr. Irvin Hyman, son of Mr. and Mrs. Abe Hyman, N. King St., has enrolled in the commercial department of Ohio State University, Columbus, for the coming term.

Regular Sunday School services will be held at the Old Town M. E. Church Sunday at 9:30 a. m. Members are asked to bring their Bibles.

The Rev. Adrian G. Lebold, pastor of the First Lutheran Church, read a paper on "Church Publicity" before a meeting of the Luther Club in Springfield this week. The Rev. Mr. Lebold became a member of this group of Lutheran ministers of Springfield and surrounding counties last September.

Trinity M. E. Church choir will meet for rehearsal at the church Friday evening at 7:30 o'clock.

The condition of Dr. George Shoup, Philadelphia, was reported to be slightly improved according to word received here by relatives late Wednesday evening. His heart is stronger and physicians say if he is able to "hold his own" for the next ten days he has a chance of recovery. Dr. Shoup is threatened by an embolism that followed an operation for appendicitis.

Mrs. James Hitts (Helen Maxey), Columbus, spent Thursday in this city with friends.

Mrs. and Mrs. Roy Beals have rented the J. B. Bice property at King and Union Sts. and moved into their new home this week. Mr. Beals is employed by the Hoover and Allison Co.

The Women's Home Missionary Society of Trinity M. E. Church will meet at the home of Mrs. Frank Bickett, W. Church St., Friday afternoon at 2:30 o'clock.

Mrs. Fred Kennon is confined to her home on W. Market St., suffering from a severe attack of inflammatory rheumatism.

DEPOSED TEACHER TAUGHT PRIMARY

Mrs. Reva S. Cavender, center of the most recent controversy in the affairs of the Xenia Township school district, was formerly a primary teacher at the Greene County Children's Home and not a teacher of the upper grades, she disclosed Thursday.

Following the refusal of the township board of education to re-employ Mrs. Cavender this fall to teach the primary room as she had done for the last five years, Mrs. Thea Spahr, upper grade teacher for the past five years, was transferred by the board to the primary department.

Because of the fact teachers employed at the county institution are supposed to meet with the approval of the superintendent, and Supt. James R. Soward insisted upon the re-election of Mrs. Cavender, the board recently arranged that the twenty-seven pupils of the upper grades be transported to two other schools in the township.

SCHOOL BUS DRIVERS TO MEET SATURDAY

Reorganization meeting of the Greene County School Bus Driver's Association, of which H. C. Aultman, county school superintendent, is president, has been called for 1:30 o'clock Saturday afternoon at the Court House. About eighty bus drivers are expected to attend.

The drivers, at this meeting, will be given driver's certificates which the law requires must be issued by the county board of education, signed by the president and clerk. Matters relating to general problems confronting school boards and bus drivers in the transportation of school children will also be considered, and the subject of insurance protection for the maximum safety of pupils will also be discussed.

INFANT DIES

William Alfred Gill, infant son of Mr. and Mrs. Wilbur Austin Gill, S. Monroe St., died at his parents' home Thursday morning at 6:15 o'clock. The baby was born July 2 and had been ill a month. He was the only child. Funeral services will be held at the home Saturday morning at 10 o'clock and burial will be made in a Wilmington cemetery.

HEADS AUXILIARY

DETROIT, Sept. 24.—Mrs. Louise W. Williams, of New York, was elected president of the American Legion Auxiliary at the concluding session of the auxiliary convention here today.

Half a Million Dollars Price Set on Lost Love

Suit Filed Against Marlene Dietrich by Rita Von Sternberg, Alleging Alienation of Husband's Affections, Puts Price-Tag on Love

MARLENE DIETRICH

Charging that Marlene Dietrich, famous German film star, has alienated the affections of her husband, Josef Von Sternberg, who has directed Miss Dietrich's pictures, Rita Von Sternberg has filed suit against the star, asking for \$500,000 heart balm. The Von Sternbergs have been divorced about four years and the director has been largely instrumental in putting the German star on the pinnacle of fame she occupies in the film world. Miss Dietrich's husband, Rudolph Sieber, publicly declared that he has the utmost confidence in his wife and that her relations with Von Sternberg are merely those customary between a director and a star. Another suit for \$100,000 has also been filed by Mrs. Von Sternberg, charging that Miss Dietrich libeled her in articles written for Austrian and German newspapers.

LOS ANGELES, Sept. 24.—The romanticist will tell you, with the light of idealism in his eyes, that the one thing in the world on which it is impossible to hang a price-tag is love. If there is a cynic in the audience the statement will call forth a tell-it-to-Ripley expression, a characteristic twist of the lips and a counter statement that love, in common with other commodities, has its value in dollars and cents.

Apparently the cynic is not alone in his belief, as we frequently have cases of indemnity being sought for the loss of the divine passion. A celebrated example, now imminent, is that in which Mrs. Rita Von Sternberg is suing Marlene Dietrich for the sum of \$500,000 for the alleged alienation of the affections of her former husband, Josef Von Sternberg, famous film director.

Miss Dietrich, as millions of movie fans already know, came to the United States from Germany about two years ago and immediately started to climb to fame at a speed that was nothing short of phenomenal, under the direction of Von Sternberg. Success was assured from the moment her first picture appeared, her expressive eyes, that could say all kinds of nice things to her audience, and her shapely limbs contributing largely to her triumph.

Last Spring, as a gesture to her love for America and its reception of her, Miss Dietrich brought her husband, Rudolph Sieber, and her daughter to live in Hollywood. The first hint of trouble brewing for the movie queen, came some months ago when rumor circulated to the effect that Mrs. Von Sternberg, divorced wife of Miss Dietrich's director, complained that her ex-husband was taking more than

Lost 20 Lbs. of Fat In Just 4 Weeks

Mrs. Mae West of St. Louis, Mo., writes: I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast—an 85 cent bottle lasts four weeks—you can get Kruschen at any drug store in America. If not joyfully satisfied after the first bottle—money back. Adv.

Kennedy's

39 West Main

berg has already instituted proceedings against Miss Dietrich in the New York Supreme Court, claiming \$500,000 indemnity for the alienation of her husband's affections. The suit charges that the lure of the blonde star's beautiful limbs was too much for Josef and that he succumbed to the extent of furnishing an apartment for Miss Dietrich and allowing her to run bills on his account at stores all over Los Angeles, "which," added Mrs. Von Sternberg, "is more than he ever allowed me to do."

But that's not all, Mrs. Von Sternberg further charges that Dietrich libeled her in newspaper articles in German and Austrian papers and for that Mrs. Von Sternberg wants another \$100,000.

Apart from being an example in the debate between the cynic and the romanticist, the cost of Von Sternberg's alleged affections may have a disastrous effect on Miss Dietrich's film career here. Hollywood frowns on scandals, and stars as brilliant as the German actress have dropped into oblivion overnight because they brought film-drama publicity of the wrong kind.

REVIVE MOVEMENT TO RE-ROUTE DIXIE HIGHWAY THROUGH XENIA

Agitation to have U. S. Route No. 25 known as the Dixie Highway, shifted at Findlay and rerouted through a number of other cities, including Xenia, has been revived, principally at Urbana, it became known Thursday.

The advocated change would take the highway through Kenton, Bellefontaine, Urbana, Springfield and Xenia to Cincinnati. At present the portion of the federal pike under discussion is routed through Lima south through Middletown and Hamilton.

A movement is said to be afoot to have city officials and civic organizations of cities along the proposed new route united for the purpose of obtaining concerted action.

Sponsors of the movement are expected to call the project to the attention of Congressman Charles

Brand, Urbana, representing the Seventh Congressional District, who is a member of the House Roads Committee.

Proponents of the plan for rerouting a part of the much-traveled highway point to the advantages of less mileage, smaller cities and less traffic congestion.

"Believe me he gets dirty!"

But Chipso washes are so easy!

Jack's OVERALLS used To be an awful CHORE UNTIL I TRIED THE NEW CHIPSO!

I'm through RUBBING! CHIPSO SUDS BUBBLE OUT THE DIRT And my CLOTHES Are as CLEAN As a NEW WHISTLE!

BIBLE THOUGHT FOR TODAY

For the law having a shadow of good things to come and not the very image of the things, can never with those sacrifices which they offered year by year continually make the comers thereunto perfect.—Hebrews, x, 1.

DR. JORDAN

The death of David Starr Jordan strikes from the active roll of American scholarship another of its foremost names. The statement that he had lived "three full lives" was once elucidated by Dr. Jordan: "I have been a naturalist and explorer in one, a teacher and finally president of Stanford University in another and I have worked in the cause of international peace in a third."

Author of many learned works, a man upon whom universities fought for the privilege of conferring their most coveted degrees, adviser and instructor of youth on campuses all over the country, what Dr. Jordan appears to have been proudest of all was his efforts in the direction of bringing peace to the earth and good will to the nations. Yet deeply as he loved peace, Dr. Jordan refused to go to Europe on a "peace ship" during the World War, a venture he regarded as Quixotic; and strongly supported his country's war policies, after it was once embarked in the struggle.

After living "three full lives," it was surprising that Dr. Jordan, as he approached four score years, was wont to say: "I am ready for death when it comes." At the end of a life so full of service to his fellowmen he did not fear to face whatever might lie beyond the grave. About Dr. Jordan's modest prayer may well have been his.

REGARDING MANCHURIA

Japan long coveted Chosen (Korea). She got it in 1895, after she had administered a humiliating defeat to China; and in addition she obtained a lease of Port Arthur and other concessions from her late enemy. With an ostentatious gesture of friendship for China, a European political consortium stepped in and prevailed upon Japan to relinquish these concessions. Czarist Russia demanded, for its part in the consortium, the lease of Port Arthur which Japan had been "induced" to give up. Also it obtained the right to build the Chinese Eastern Railway, a cut-off for its Trans-Siberian Railway, across northern Manchuria; and, a little later, the right to construct a branch line from Harbin to Port Arthur and Dalny, which was named the South Manchurian Railway.

The occupation of Port Arthur by Russia was a threat to Japan's program in Chosen and an obstacle to Japan's penetration of southern Manchuria. Consequently, a decade after Russian intrigue had deprived Japan of Port Arthur, Japanese arms drove Russia out of Manchuria south of Changchun, about midway between Mukden and Harbin. The treaty of Portsmouth gave Japan the South Manchurian Railway between Changchun and Dalny (Dairen) and thus opened all of Manchuria tributary to this section of the railway to Japanese exploitation, as a "sphere of influence." Subsequently she obtained from China other valuable railway and mining concessions.

As long as southern Manchuria was sparsely occupied, all went well with Japan's plans for peaceful conquest; but with the filling up of the country with Chinese, after the turn of the century and more especially after the revolution of 1911 and its train of civil war in China, the friction between the Chinese on one hand and the Japanese and Koreans on the other, was intensified. The recent anti-Chinese riots in Korea were provoked by the repressive attitude displayed by the Manchurian authorities toward Korean immigrants. The failure of Japan to prevent these riots was presumably what led a few weeks ago to the murder of a Japanese army captain and three companions in Manchuria. Shortly after the latter incident, a report that the Japanese army had threatened to take retaliation into its own hands if the Tokyo foreign office did not move faster, was denied in Tokyo; but the clash at Mukden looks very much as if the Japanese army had made good its threat.

RESTORATION OF CONFIDENCE

In Russia the government says that the way to make industry and business run well, is to have the government dictate every detail of the life and industry of the people. So the government tells people where they shall work, what wages they shall have, where they can buy their supplies. Anyone who opposes the policy of the government, may be jailed, sent to Siberia, or shot.

Under that plan, the government is no doubt able to stop people from doing many foolish and wasteful things. But such a plan destroys the personal freedom which our people value more than anything else. When the government makes mistakes, as frequently it does, then the loss is very great.

In America and the rest of the world, business is given individual freedom, subject to reasonable government control. It is based on mutual confidence and faith, that people can generally be trusted, that the system of government and business is sound.

To make this system work well, a general feeling of mutual confidence is necessary. The recent industrial depression is due to the fact that some part of this confidence has been destroyed. People are fearful of imaginary dangers. The main thing to do to get business running normally, is to restore their confidence, and give them faith, so that they will go ahead and act as they usually do.

To give them this confidence, two things are necessary: First, give wage-earners confidence that they are going to hold their jobs.

Second, give business people confidence that a reasonable profit can be earned on capital, that legislation too hostile to business will not be pushed through. If these two elements can be given this confidence, business revival will take place almost immediately here in Ohio and everywhere else.

"Ma" Kennedy may have to possess her soul in patience at times, but she "gets her man" in the end.

"A coward dies a thousand deaths, a brave man dies but one," or something of that sort. Shakespeare, however, seems to have died 13, a very unlucky number, which may account for the Baconian theory.

The disposition of the League of Nations to give Mexico prominence in its councils if that country finally decides to join up, naturally appeals to the national pride; but it ought also to create a feeling of caution.

Bishop Cannon is home with a request that a grand jury investigate his disposal of funds in the last presidential campaign. Is the bishop hoping to get Gerald Nye and his committee before some such body as witnesses?

The parting advice from Gen. Snedley D. Butler to the marines at Quantico was this: "Fight like Hell, but don't cry when you are licked." This couldn't go over a properly censored radio line, but it is good advice nevertheless, particularly the latter half.

MY NEW YORK

By JAMES ASWELL

NEW YORK.—Playwrights and novelists are celebrating the tense melodramas which occur daily and nightly in the great hotels. These yarns, so far, have been largely concerned with the guests. But within the staff of each of these skyscraper havens there are countless homely dramas, many of them full of laughter, just as there are in modest households.

Here is one: To Mr. Ralph Hitz, manager of the Hotel New Yorker, came a letter from a young man from the managing director of Transcontinental Western Air, Inc. The epistle mentioned the installation of a new express service and went on, in true press-agent style:

"How opportune! For this permits me to send you one of our best Ozard Tom Cats which I am sure you will find efficient in your store room.

"I am quite confident that an interchange of cats will prove mutually beneficial, as the change of environment and subsequent interbreeding ought to produce a cat which will strike fear into the heart of any mouse."

M. Hitz lifted an eyebrow and flicked a speck from his huge gardenia. It takes imagination to speak of sending H. Hitz a tom cat. Nevertheless, two days later an immense and markedly unfragrant crate was delivered into the manager's office. Inside reposed a beast proportioned like a small tiger and let black. He leered at his new friends. He hissed.

The entire staff was thrown into a temporary uproar. A conference of executive heads was called, including even the house doctor. Here was a delicate situation. If the feline were retained the outside world might infer that the services of a tom cat were required in the Hotel New Yorker, wherever. If he were returned to the donor the act might be considered ungrateful.

SAVED BY THE MILITIA

At last three major-generals of the bell-hop corps were summoned and commanded to take the animal for a nice, long walk. If they returned without their ward—for example, if he should become lost—they would be given the rank of first lieutenants, and excused from drill for a week. If the cat did not disappear during the stroll, a chevron and four bars would be removed from the uniforms of the officers, leaving only thirty of each. Quite possibly they would be demoted to colonels, too.

Opening the box cautiously with a crowbar, the bellhops induced the ebony gentleman to accompany them to the street on a leash. The little party proceeded down Eighth Ave. to 42nd St. and there became lost in the crowd. Later the three uniformed guardians returned to the hotel with an empty leash.

The following day a guest of the hotel walked proudly into the manager's office with the cat under his arm. He had found it in a doorway of 72nd St. Having heard that the hotel cat was lost, he was happy to have performed the service of restoring the pet.

The other day I printed verbatim an announcement from the high-toned and flossy Luna Park, of Coney Island, setting forth the spiritual, cultural and esthetic value of their "classic physical contest"—and added the intimation that if the press-agent of the place would be so kind as to come out from behind his beard he would be revealed as ballyhoo man for a beauty contest.

He writes: "You would call it a 'Beauty' Show that which it is not. Beauty shows are a stench and a hissing. A classic physical contest is based on proportion according to Greek standards of the old masters Phidias, Praxiteles et al. Sylvester Sullivan."

Whoops! I stand corrected—although, as Immanuel Kant said to Machiavelli: "It's baloney any way you slice it."

FORCES AND PHYSICAL CONDITIONS CAUSING POLAR FLATTENING OF PLANETS

By Arthur DeV. Carpenter

We are all familiar with the fact that the rotation of a planet upon its axis tends to make it bulge at the equator and become flattened at the poles, and the more rapidly the planet rotates the more oblate (flattened) it becomes. Then, too, the greater the gravity at the center of a planet, the greater is the resistance to the centrifugal force that flattens it. Also the way matter is distributed within a planet greatly affects the amount of its oblateness. If most of its density resides near its center, its rotatory energy tends to give it a greater polar flattening. Jupiter observed through a telescope is very noticeably flattened. Its greater density must be at its center.

The value of farm equipment sold by American manufacturers in 1928 totaled \$68,038,887, of which the equipment for export was valued at \$112,546,389.

The two largest national forests are in Alaska—Tongass, 16,543,143 acres and Chugach, 4,799,470 acres.

The signers and their families, of the Declaration of Independence were proscribed as traitors by the British government and rewards of 500 pounds were offered for their apprehension.

The University of Oxford, England, is said to have been founded by King Alfred in 872.

The English word, dollar, comes from the German term, thaler. Shakespeare thus translated it in "Macbeth."

MEAN OLD THING

"My mistress is so curious."

"How is that?"

"Today I looked through the keyhole into her room and she was looking through the keyhole out at me."

SIGNS OF PROGRESS

FORMER SENATOR FRANCE IN RACE AS OPPONENT OF HOOVER RENAMING

CHARLES F. STEWART

WASHINGTON.—In the 1932 Republican presidential activities of ex-Senator Joseph I. France of Mount Ararat farms, just outside Port Deposit, Maryland, there is more than meets the first glance of the eye.

Dr. France is spending considerable money on his pre-convention campaign, but he has no delusions as to his real prospects.

Anyway, he is not much deluded. Maybe he does think that he stands as much chance of being nominated as the holder of one ticket would stand to win the capital prize in a national lottery. Most folk probably would pronounce even that a delusion.

Nevertheless, the ex-senator does not deceive himself at all badly.

For the general public's benefit, he pretends, of course, to regard his candidacy for the G. O. P. nomination seriously, but he makes no such pretense among politicians, with whom he is well acquainted, and to whom he talks actual "turkey."

The fact is that he disapproves of President Hoover as few, if any, other folk disapprove of the Californian, and willingly spends his money, of which he has enough to enable him to spend a sizable sum without unduly pinching himself, in an effort to annoy the latter as thoroughly as possible.

If, by any fluke (simply supposing it, for the mere sake of argument), the doctor's forlorn hope of preventing Mr. Hoover from being named to succeed himself in the White House should be realized—why, then Dr. France would be in the position of a person who literally has won the capital prize in a national lottery with his single ticket.

And if (following up the afore-said ridiculous supposition) Dr. France himself were to be struck by the presidential lightning—well, that also would be entirely satisfactory to him.

In the meantime Dr. France is having the fun of making things as disagreeable for the president as

he can. Evidently he considers the show worth the price of admission.

The ex-senator's size-up of the situation is not uninteresting.

His idea is to get enough votes to cast, each, its initial vote for some "favorite son" of its own to prevent Mr. Hoover from receiving a majority on that ballot, at the next G. O. P. convention.

And his theory is that, should this occur, anti-Hoover sentiment would be so crystallized and heartened as to keep the president from securing a majority on any subsequent ballot—the "favorite son" instead, gradually eliminating one another by a succession of combinations among themselves, and the last survivor finally copping the nomination.

It is true enough that Mr. Hoover has disappointed the progressive Republicans. Let him be renominated, as it is almost certain he will be, and most of them undoubtedly will support him again, most of them did in 1928.

For all that, they wish they could believe he will not be renominated.

They have suggested plenty of "favorite sons."

Senator Brookhart repeatedly has suggested Senator Norris of Nebraska—without any encouragement from Senator Norris, however. Senator Brookhart and various others have strongly suggested Senator Borah of Idaho—it is hard to tell with how much encouragement from Senator Borah. Young Senator Bob La Follette of Wisconsin has been suggested and so has his brother, young Gov. Phil La Follette. Governor Pinchot of Pennsylvania has been suggested to the point of a veritable boom, for which he gives no indication of being displeased.

Some of the progressive states, however, have not put forward "favorite sons" of their own and these are the ones ex-Senator France is devoting himself to.

He is suggesting his own name to them rather than have them left

with no candidate other than Mr. Hoover to vote for.

He is touring progressive territory, now, on this mission.

The doctor never has been notably a progressive, but, at that, he argues that he is more so than Mr. Hoover, and here and there a progressive is to be found who seems to agree with him.

Yet it is not alone to the progressives that Dr. France is appealing.

It was no secret at Kansas City that a formidable contingent of very regular Republicans ardently objected to the Californian as their party's standard bearer and he by no means has won all of them over since then.

This group divides at present into two sub-groups.

Of these two groups, one takes the position that Mr. Hoover is bound to be renominated in spite of everything. The group's members say that they believe he will be beaten at the polls, indeed, but they express the opinion that it is as good a time as ever there will be for the G. O. P. to lose, inasmuch as it is their judgment that the depression will last at least four years more, and in 1936, they predict, the country will be ready to return to the Republican fold and stay there indefinitely.

On the opposite hand, the rival group's spokesmen forecast a revival of prosperity within a year or two, in which case, they point out, the Democrats, if in office, will get the credit for it, and heaven knows when the Republicans will get back.

Group No. 2 is the one ex-Senator France is endeavoring to enlist under his banner, along with the progressives.

The doctor's theory is all right, but how many recruits will he get?

HOUSEHOLD HINTS

By MRS. MARY MORTON

MENU HINT

Corn Suey Raisin Bread Sliced Peaches Cookies Milk This is a luncheon for the family. Fig newtons are fine cookies to serve for luncheon, although oatmeal cookies are probably preferable in the menu suggested, as bread and sliced peaches are both served.

Today's Recipes

Corn Suey—One stalk celery, three or four ears corn, one green pepper, four ears corn, one teaspoon Chinese sauce, Slice onions and celery and fry until half cooked. Add Chinese sauce, and green pepper cut in small pieces. Add corn cut from cob. Let cook ten minutes.

Oatmeal Cookies—One cup rolled oats, one-half cup sugar, one-fourth teaspoon salt, one teaspoon baking powder, one-half tablespoon melted fat, one egg, one-half teaspoon vanilla. Mix dry ingredients, add fat and egg beaten slightly. Drop the dough from a teaspoon in small balls two inches apart on a greased tin. Bake cookies in a moderately hot oven until a delicate brown.

Using Leftover Corn

Leftover corn is delicious used as a stuffing for baked tomatoes. Add a little chopped sweet green pepper and a very little finely-chopped onion. Combine with egg and medium white sauce, one egg and six stuffed tomatoes. Cover tops of filled tomatoes with buttered bread crumbs, place in a buttered casserole and bake in a moderate oven for 30 minutes.

Child Needs More Food

By LOGAN CLENDENIN, M. D.

The balance of the food elements for a child of 8 or 9 years and up is the same as for an adult. The younger child may need a little more protein proportionately, but that is the only possible difference. But the child needs a great deal more of all the food elements than the adult, on account of its much greater activity. Gehart, in studying the boys of St. Paul's school, found they needed 5,000 to 6,000 calories a day. This is nearly twice as much as an adult needs.

A sample day's diet for a child of 12 years old is given by Palmer as follows:

Breakfast
Cooked Apples (four tablespoons)
Bacon (two slices)
Cereal (one cup)
Milk (one glass)
Cream (four tablespoons)
Sugar (two teaspoons)
Toast (two slices)
Butter (two pats)
Lunch
Cream of Vegetable Soup (one cup)
Egg Salad Mayonnaise (one tablespoon)

Buttered Noodles (three tablespoons)
Sugar (two teaspoons)
Sliced Peaches
Bread (two slices)
Butter (two pats)
Milk (one glass)
Dinner
Roast Beef (one slice)
Browned Potatoes (one medium)
Jelly (one tablespoon)
Buttered Carrots (three tablespoons)
Bread (one slice) Butter (one pat)
One Cookie Baked Custard
Milk (one glass)

Editor's Note: Six pamphlets by Dr. Clendenin can now be obtained by sending 10 cents in coin, for each, and a self-addressed, stamped envelope, to Dr. Logan Clendenin, in care of this paper or Central Press Association, 1435 East Twelfth street, Cleveland, O. The pamphlets are: "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene" and "The Care of the Hair and Skin."

Counsels Fair Play For Popularity

By MRS. VIRGINIA LEE

"DEAR MISS LEE: Just what must a girl do to have personality with the opposite sex, and what can she do to be popular?"

"I have often heard if a girl wants to win a certain boy she can get him by acting indifferent. Is this right?" DINA LEE.

Some say one thing and some another, Dina Lee. A girl who is popular rolled her eyes and said: "Give them a line and forget them." Meaning the boys, of course.

Others attain the same ends by treating men as human beings—listening to their tales of woe, hopes and ambition. I think this latter is the best to obtain all-around lasting popularity.

Cultivate an amiable disposition, a sense of humor, wide interests so that you can talk easily and be fair in your dealings. You may not always have a gang of boys vying for your favors, but I bet you'll have some mighty good friends of both sexes.

TRUE FRIEND: Let the girl friend find out the worthlessness of these other people for herself. You will never get any credit for trying to show her their faults, and will get yourself disliked for butting into her affairs.

"DEAR VIRGINIA LEE: I care very much for a boy with whom I used to go steady. He is now going with another girl. What can I do to win him back again? JUDY."

Not an honest thing, Judy. Why didn't you keep him while you had him?

"MISS VIRGINIA LEE: I am married and have a baby boy five months old. I was in the habit of drinking and staying out late and sometimes talking to girls I used to know, but never going with them.

"But people who do not like me have done everything against me. I have been born and am willing to do everything for them but I cannot get the chance. If she would understand like some of the wives that write to your column she would come back, but all the advice she gets is, don't go back and ruin your life.

"Why do women, when they have quarreled, go to people who only make it harder for man and wife to get along? JUST A SHIP WITHOUT A PILOT."

Have you thought about how your wife felt staying home alone

while you drank and went out nights and flirted with other girls? Pretty lonely and humiliated and discouraged, I imagine. Better think hard about it now so as to realize how hard it is for her to forgive and forget.

It is too bad that outsiders have to interfere between man and wife, but maybe these people to whom your wife listens thought that she was foolish to stay as long as she did with a man who treated her as you did. Wives put up with a great deal from their men very often, but when they are through they are through. They feel they have had enough and that they never want to try life with him again. This may be the case with your wife.

The only thing to do is to live so that everyone can see you are really changed and will never again do as you have done. And don't do it just for a week or a month and expect everyone to forget the past, because they won't. People have long memories when it comes to other people's faults. Make up your mind that you are going to do what is right always. Your wife will see, after awhile, that you really are different and will, I hope, go back to you.

L. J. M.: I think the young man should let his old girl know something about the new one. If she knows he is going with another girl it will not be quite such a shock to her if he decides he really does love this new one best and wants to break with the other. Of course it will be very hard on her, but it is really better for her to know, don't you think so? It really is not his fault that he has changed, but just one of those things. It's just too bad for girl No. 1, however.

JUST A BLONDY: Not knowing what the circumstances of your life are, I would hardly be able to advise you how to get acquainted with nice boys and girls. Blondy. Especially as your parents do not let you go out with young people. Girls and boys usually meet at school, church, at friends' homes, etc. Yes, I think you are old enough to go out and should keep on trying to make your people see that you need friends of your own age.

Approximately 13,000 passengers arrived or departed from the Chicago Municipal airport in August, and approximately 20,000 pieces of air mail were handled.

Adept Tells How Packs Are Made

By GLADYS GLAD

"DEAR MISS GLAD: My neck is rather fat and flabby, and in addition to exercising, I have been advised to give it a number of astringent packs. I do not, however, know how to administer an astringent pack to my neck, and would be glad if you could aid me.

"Marybelle."

Before you apply an astringent pack to your neck, cleanse your skin thoroughly with a bland soap and water. Then apply a light coating of cream to your neck, and pat it gently into the skin with the tips of your fingers. To prepare the astringent pack, any good astringent lotion may be used, even plain witch hazel. But a particularly effective one can be made of 5 ounces of elderflower water, 2 ounces of cologne water, 20 drops of tannic acid and 1 teaspoonful of tincture of benzoin. Take a long strip of gauze, dip it into this or any astringent lotion you prefer, and bind it about your neck. You can, if you wish, allow it to remain on all night, but you must permit it to remain on for half an hour at least.

"Dear Miss Glad: The instructions on hair contained in your 'Beauty Culture' booklet have certainly helped me a lot. My hair is much softer, thicker and wavier now than it formerly was. However, the other morning, while brushing my hair, I noticed a few little white 'nits' in it. I am terribly discouraged, and don't know what to do to get rid of these parasites. Can you help me in this matter?" BESSIE GAIAMO.

Hair vinegar constitutes an excellent remedy for a mild pediculosis condition such as you describe. Before retiring at night, heat a quantity of vinegar and saturate your hair with it. Of course, the vinegar should not be hot enough to burn your scalp, but it should be as warm as you can comfortably stand it. When your hair has

been thoroughly soaked, wrap a turkish towel about your head, and hop into bed. The following morning, shampoo your hair with a pure bland soap, and dry it thoroughly. Then brush and comb your tresses vigorously in order to remove any remaining parasites. Three or four such treatments should be sufficient to remedy the pediculosis condition of which you complain.

"Dear Miss Glad: Could you possibly tell me just what you, Egyptian henna is, and what effects it has on different shades of hair? Is this preparation suitable for use on gray hair? I shall be most grateful if you will give me this information."

"MRS. C. K." The pure, Egyptian henna is a hair coloring preparation that is made of the leaves of the henna shrub. The pure henna is in no way injurious to hair health. It gives a reddish tint to all hair that has a basic color. The darker the hair, the less obvious this reddish tint appears. The Egyptian henna, however, gives a carrot shade to gray or white hair, and therefore is not very suitable for use on such hair.

Editor's Note: While it is impossible for Miss Glad to answer beauty questions by mail, she will be happy to send you her pamphlets on "The New Figure" and "Beauty Culture" if you will write her, care of this paper, enclosing a stamped self-addressed envelope and ten cents in coin for each, to cover cost of printing and handling. For her articles on "Care of the Hands and Nails" and "Care of the Feet and Legs," two cents in coin for each, and a self-addressed, stamped envelope are required. Personal questions on beauty will be answered through Miss Glad's daily column.

Xenia - Washington To Revive Grid Rivalry

ANCIENT FOOTBALL ENEMIES TO INITIATE NIGHT GAME IN XENIA

Game Starts At 8 p. m. Blue Lions Have Edge In Victories Over Twenty Years; Xenia Lost Last Year By 37-0 Score

A football rivalry which had its inception more than a score of years ago and has been continued with only three interruptions since 1911 will be renewed at Cox Athletic Field Friday night when Xenia Central and Washington C. H. grid teams mingle under the newly installed floodlights. The kickoff will be at 8 p. m.

The Blue Lions have already played—and lost—their season's opener to Columbus Aquinas, but the nocturnal contest will serve as the initial 1931 trial spin for the Buccaneer football machine.

The Xenia grid machine is in reality the 1930 model, with a few original parts missing perhaps, but rejuvenated by new replacements.

Under the stimulus of three weeks of intensive drills, the Buccaneer squad has emerged almost unscathed. The gridgers, with the exception of Bill Wagner, counted upon for a regular backfield berth, have managed to somehow evade serious injuries despite spirited scrimmage sessions.

Wagner, who is bothered by what in athletic parlance is commonly known as a "charley horse," in this case a leg muscle ailment, in all probability will not start the game Friday night. The other Buccaneers, aside from one or two who have minor physical grievances, are in tip-top shape for the lid-lifting contest.

Constant practice since the first of the month has convinced Coach Walter C. "Pinky" Wilson that Central should be stronger this fall than last, but he is anxious to see what his boys can accomplish under actual fire.

The Buccaneer eleven will probably again be stronger defensively than offensively this season, although the backfield is more or less composed of veteran candidates. Dick Creamer and Paul Baldwin are waging a merry scrap for the right to call signals from the quarterback post vacated by Birch Bell. Creamer, 135-pound junior with two years of experience, may have the inside track, but Baldwin, a senior weighing ten pounds less, is giving him a hot argument. Clinton "Pinch" Adair, 130-pound sophomore, is also making a three-cornered fight of it.

Howard Thompson, veteran of three grid campaigns, is a certainty for one halfback assignment. He will also bear the burden of punting. The fact Wagner, senior and semi-regular last season, will probably not be in condition to start the game, leaves the other halfback job a "wide open" affair with numerous candidates vying for the position. Tom Huston, 135-pound junior, Eugene Confer, another junior, Ed Luttrell sophomore prospect, and Charlie Montgomery, a junior who weighs 100 pounds and is the lightest member of the squad, are the most prominent aspirants.

Freddie Dalton, junior, now weighing 155 pounds, will be at fullback and he will constitute the principal Buccaneer offensive threat unless all signs fail. Freddie

RAY HENLEY SCORES UPSET IN VICTORY IN LEXINGTON RACE

Scoring an upset by defeating the favorite, Ray Henley, the speedy brown gelding owned by George Hagler, near Xenia, was a handy victor in the 2-15 pace valued at \$1,000, the event ushering in the afternoon's card on the Grand Circuit harness racing program at Lexington, Ky., Wednesday.

Piloted by Trainer Joe Hagler, son of the owner, the four-year-old star of the Ohio half-mile tracks won the race in straight heats, over the favorite, Arthur Mower, driven by Stokes. Eight pacers comprised the field and the Greene County bred and owned wiggler, of his best behavior, flashed under the wire in fast time each heat. Ray Henley paced the first mile in 2:02½, the second in 2:03½ and the third in 2:04½.

The local horse will go again next Monday, according to report, having been entered in a stake event in which the competition will be keener than ever.

Bowling

son's play in the Business Men's Bowling League were held on the Recreation alleys Wednesday night, and the three competing teams divided the evening's spoils. Honors for the initial match play were split, each team winning a game.

R. Smith, with a series of 552, recorded the highest individual three-game total. Box scores:

TWENTY-SIX OHIO GRID TEAMS BEGIN CAMPAIGNS THIS WEEK

COLUMBUS, O., Sept. 24.—Twenty-six Ohio colleges stood on the threshold of the 1931 football season today.

Three games tomorrow, two of which will be played at night, will start the Ohio collegiate season. The big rush will commence the following day when most of Ohio's other teams will engage in their season's openers.

Sam Willaman's Ohio State University squad will remain at practice, awaiting its first game a week later with the University of Cincinnati.

Muskingum will meet Wilmington, Georgetown will battle Wittenberg at Springfield, and Hanover will perform against the University of Dayton in Friday's games. The Dayton and New Concord games will be played at night.

Saturday's games will give fans their first view of the majority of Ohio's teams, although the customary plan of picking set-ups for the first game of the year is still in vogue, and now as in the past it is still difficult to judge any team from its opening game performance.

The Heidelberg Student Princes, Ohio conference sensations last year, will take on the Hope, Mich. team, which is doubtful of quality to Ohio fans, at Tiffin in one of Saturday's big games.

NEED BOOKKEEPER TO FIGURE NORTHWESTERN U'S PROSPECTS

(This is the second of a series by Leo Fischer, the training camps of the big ten colleges. Follow him around the big ten for the real "inside" dope on the situation. Illinois will be next—Ed.)

By LEO FISCHER
International News Service Sports Writer

EVANSTON, Ill., Sept. 24.—How do you rate a bookkeeper? If you're an expert along these lines, perhaps you are better qualified to figure Northwestern's chances for repeating as big ten champion than just a mere football writer.

Analyzing the situation at Evanston, where Coach Dick Hanley is trying to weld together another powerful machine, the entire matter resolves itself into a problem of book-keeping—trying to balance debits and credits.

Here are the debits on the Wildcat ledger:

Hank Bruder, one of the best defensive backs in the big ten.

Lee Hanley, all-conference quarterback.

Frank Baker, all-American end.

Wade Woodworth, all-American guard.

Bob Clark, second best center in the big ten.

Bob Gonyea, leading conference tackle.

Larry Oliphant, regular right end.

Seven other valuable members of the title squad.

Credits:

"Reb" Russell, all-American fullback.

Pug Rentner, best forward passer in the big ten.

Dal Marvill and Jack Riley, all-conference tackles.

Jimmie Evans, brilliant guard.

Assorted substitutes and reserves.

Unusually good sophomore talent. There are the statistics. Now figure the answer. If Coach Hanley can make his credits equal the debits, with a bit left over, then they might as well start dusting the trophy cases at Patten Gymnasium to make room for another championship cup.

To be frank, Dick himself doesn't know whether he's going to

finish in the red or not. In the meantime, he's a bit resentful about what he calls "being put on the spot." In no uncertain manner he declares:

"How do they get that way, picking us to win a championship in easy style? Don't forget we've lost most of last year's team, including our best pass receivers, our leading defensive backs and a number of fine line men."

We're inclined to agree with Hanley. If—and it's a big one—the sophomore and reserve material thrown into the gaps lives up to expectations, then Northwestern will be up at the top when the quelling whistle blows in November. If the new men don't, then it's going to be too bad right from the start, said start consisting of Nebraska and Notre Dame, two of the toughest opponents ever faced by a major team on its opening dates.

The probable Northwestern starting lineup against Nebraska October 3 will be:

Fend (164) and Elyar (170), ends; Riley (218) and Marvill (227), tackles; Evans (172) and Dilley (174), guards; Proberg (182), center; Moore (175), quarterback; Rentner (181) and Meenan (191), halfbacks; Russell (192), fullback.

Northwestern's big ten schedule includes Ohio, Illinois, Minnesota, Indiana and Iowa. Just how any one of these can stop the Wildcats, we don't see. And since we're not able to see such a contingency, there should be no hesitation in predicting that Northwestern will finish on top once more—barring accidents to which all teams are prey. The most serious of these, in this instance, will be the failure of the Wildcats stars to live up to their reputations.

SCOUTS CLIMB 13,090 FT.

STOCKTON, Calif., Sept. 24.—Four Eagle Scouts, Bob Swenson, Jack and Bill Dozier, and Torrey Lyons are considered first-class mountain climbers here. The quartette climbed to the 13,090 foot summit of Mount Lyell, which is reputed to be the most difficult in the state for amateur climbers. From the summit the Boy Scouts were able to view Mount Ritter, Half Dome and Mount Dana on an equal plane.

PUPILS URGED TO SEE FAMED MOVIE

H. C. Aultman, county school superintendent, announces that pupils in the county schools need have no fear they will be counted absent from school should they care to take advantage of the opportunity to come to Xenia in the afternoon and see the educational motion picture, "Abraham Lincoln," being shown at the Orpheum Theater.

County school children were invited to the various matinee showings of the picture but have generally been unable to accept the offer due to lack of theater space to accommodate more than a limited number at one time.

Pupils, according to the superintendent, may attend individually or in groups, accompanied by parents or unaccompanied, without being counted absent from school.

Save money on a Quality Suit this Fall or Save your money altogether.
This Fall, the quality suit costs lots less money...but the second rate garment is still a faker.
These are fine days for buying fine clothes...but pretty poor days for poor tailoring...in fact, you'd be better off getting along without the clothes than without the quality.
You can pay \$18 and carry home a suit box full of dissatisfaction...or you can start at \$23.50 and enjoy beautiful apparel.
There's no use buying unhappiness...when you are better off without it.

NEW YORK STOCK MARKET
NEW YORK, Sept. 24.—Today was profit-taking day in the stock market, for the fortunate traders and speculators who bought stocks at the low prices of Monday and Tuesday. Prices dropped 1 to 5 points in a long list of the shares which soared so spectacularly yesterday, the sharpest declines being in a few of the rails. Railroad bonds were able to continue their advance on a smaller scale, and cotton rose a dollar a bale.

CLOSING QUOTATIONS
New York stock market quotations received from W. B. Hutton and Co., Mutual Home Bldg., Dayton, at 2:50 p. m. daily:

GANDHI AND HIS VIEWS PUZZLE BRITISH FOLK BISHOP REPORTS

By Central Press
LONDON, Sept. 24.—To the ordinary Englishman, Mahandas Karamchand Gandhi is an enigma, says the Rt. Rev. Henry Whitehead, who, as Bishop of Madras, has had a long personal acquaintance with the Indian leader.

Enigma is correct. This mighty power at the Indian round table conference, with his toothless smile, his goats' milk, his silk loin cloth (changed to white trousers because of London's climate) at first amused rather than awed the multitudes of Britain's capital.

But now Gandhi's political philosophy is beginning to be viewed, both sympathetically and unsympathetically, as something world-inclusive. And thus it is drawing heated comment.

"Gandhi's mind seems often to move in a different plane from ours," says the Rt. Rev. Mr. Whitehead, in The Evening Standard. "A line of reasoning that is conclusive to us seems to make no impression on him. And his difference or blindness to what appear to us obvious facts, his strange capacity for holding and expressing contradictory opinions fill us with amazement."

Would Restore Outcasts
"He has, for example, constantly asserted during the last fifteen years that the people of India cannot be fit for swaraj (self-government) so long as the untouchability of the sixty million outcasts remains. He has described this stigma of untouchability as a 'hydra-headed monster,' a cancer eating into the vitals of society, a denial of the rights of man, a sin against religion and humanity."

"The conclusion seems to be obvious. Swaraj must wait until untouchability is removed. But that is not the conclusion drawn by Mr. Gandhi. Quite the opposite. Almost immediately after statements of this kind he demands peremptorily that the British gov-

ernment must give self-government without delay and denounces it as insincere because it refuses to do so.

"But Mr. Gandhi evidently feels there is nothing at all incongruous or uncomfortable in a position of this kind. Mr. C. F. Andrews, who knows him intimately and is one of his closest personal friends, writes: 'To Mr. Gandhi any swerving from the truth, even in casual utterance, is intolerable.'

"To understand Gandhi's attitude of mind, we must study the intellectual background, the philosophy, so different from our own, out of which it springs."

"Hindu thought in the past has had two characteristics, which are not in themselves peculiar to India, but which have been more strongly developed there than in any other civilized country, in the ancient world."

"The first is, what has been well called the major vice of the intellect, excessive abstraction. Hindu thinkers above all others have revelled in the notion that the wider the abstraction the nearer the truth, so that the idea of ultimate reality, formed by the dominant school of Hindu philosophy, is a being from which every quality conceivable to a finite mind has been abstracted and about which we cannot make any true statement whatever."

World of Matter Called Illusion
"And the second is that notion that the world of matter and finite existence generally is what is called Maya, or illusion. Some Hindu philosophers describe it in metaphorical language as the sport or play of Ultimate Reality. But however it is described, it has no purpose and it not, in the full sense of the word, real. To this world of illusion Truth, as we conceive it, is obviously irrelevant."

"The effect of these two fundamental ideas, working on higher thought of Hinduism for many cen-

turies, has been to create an attitude of mind towards truth very different from that which has been developed in the West under the threefold influence of Greek thought, Christianity and modern science. The difference is revealed at once by the simple fact that in the ancient literature of India there has been no science of history worthy of mention."

A Britisher's View
All this, of course, is a British point of view. To many who have been near him and to millions who have heard him over the radio, Gandhi seems a man passionately devoted to the happiness of mankind.

"The world," says Gandhi, "is sick unto death of blood spilling. The world is seeking a way out, and I flatter myself with the belief that perhaps it may be the privilege of the ancient land of India to show the way out to the hungering world."

In his acceptance of great per-

sonal discomforts to emphasize the poverty and subjugation of India, Gandhi has drawn the world's attention in a spectacular manner to a political program of freedom and peace that may extend—as he intimates—far beyond the boundaries of India.

EAST END NEWS
MRS. JAMES HARRIS
Correspondent
Tel. 91-R

Much interest is being manifested by the participants in "The Millonaire Wedding" to take place at First A. M. E. Church Friday night, under the tutelage of Mrs. S. A. Amos.

The bride, Miss Geneva Harding and the groom, Mr. Kenneth Greene, are to be congratulated as guests will be in attendance from Chicago, Ill., Baltimore, Md., and other large cities. Mr. Reverdy

Ransom, grandson of Bishop R. C. Ransom will be one of the party. Those desiring to attend must come early to avoid the rush. A musical program will preface the wedding.

The pageant given at the First A. M. E. Church Tuesday night met the approval of all present. Miss Una Mae Carlisle and Mrs. James Scott added much to the affair by special selections. Wednesday night, Dr. H. A. Sumers of Payne Theological Seminary gave an address on "Emancipation Day," emphasizing the fact that it meant opportunity to the Negro race. He was followed by a short talk by Rev. Lewis of St. John's A. M. E. Church. Rev. Perdue of Zion Baptist Church will speak tonight.

Mr. Alfred Powell of Columbus, O., spent a few hours Tuesday with his sister, Mrs. Ina E. Hinton, E. Main St.

ing some time with their brother-in-law and sister, Mr. and Mrs. Oscar Jones, E. Church St.

Mr. J. D. Stewart of Toledo was the guest over the week end of relatives. His wife, Mrs. Marie Stewart, accompanied him home.

Mrs. B. J. Simpkins, E. Second St., has returned from the bedside of her daughter, Mrs. Reber Cann, of Cincinnati. Mrs. Cann, who has been very ill, is somewhat improved.

The Rev. F. M. Liggins, E. Market St., who has been doing evangelistic work in Muncie, Ind and other points for some time returned home this week.

Mrs. Bertha Boothe, E. Market St., was the guest Tuesday of her uncle and aunt, Mr. and Mrs. Chas. Lockett, Springfield.

All persons taking part in the fashion show, for the Chautauqua, at Zion Baptist Church, please be at the church Friday night at 8 o'clock for rehearsal.

WANTS YOU TO PROVE

*that this is the finest blade ever
made...shave with the*

BLUE SUPER-BLADE

THE Blue Super-Blade—new, higher in quality, far finer and made in addition to the regular standard blade—is announced by the Gillette Safety Razor Company. It costs a little more and is worth it to the man who wants the utmost in shaving comfort and satisfaction. This blade is made by an entirely new scientific method. We are confident this is the keenest razor blade ever perfected—the best that scientific knowledge and unlimited resources can produce today. Made by a new scientific method, its

delicately precisioned edges are especially honed and stropped to shave you gently and without irritating tender skin. Tough beard is whisked away with light, smooth strokes. Automatic machines make this blade absolutely uniform in quality.

The Blue Super-Blade is easy to identify. It is blue and inclosed in a blue package wrapped in Cellophane. Try this remarkable new blade on our guarantee. Buy a package for only a few cents more. Enjoy a revelation in shaving comfort or return the package to your dealer and get your money.

Young Men Saved from Sirens—Price \$100,000

Teacher Suing Society Matron for That Remuneration Says She Acted as "Moral Pilot" for \$200,000,000 Heir

HUNTINGTON HARTFORD

MRS. HENRIETTA HARTFORD

NEWPORT, R. I., Sept. 15.—In these days of depression, wage cuts and apple sellers, unique methods of earning one's daily coffee and cakes are no novelty, but the job of guardian angel to a juvenile Croesus tops the lot by a big margin.

Newport, the playground of society, is all agog over the suit recently filed by Mildred King against Mrs. Henrietta Hartford, asking for \$100,000 back pay for having steered the action and heir of the Hartfords, Huntington, 19, away from the primrose path and along a road of moral rectitude.

Miss King, who is, or was, of the Boston Conservatory of Music, alleges that she was hired by Mrs. Hartford at a time when that lady was a prey to the gravest anxiety occasioned by the flitting of her son in too close proximity to the flaming lure of a "Broadway siren." Her duties, according to Miss King, were to consist of gently, but firmly putting the curb on young Huntington, leading him away from the Broadway forty-niners and inducing him to associate with young people in his own social stratum and financial position.

This last was a more difficult task than it sounds, for, as the young man is heir to about \$200,000,000, there aren't a great many young people with whom he could start off at par.

Anyway, Miss King states, she tackled the job and having conquered the dragon, or rather the Broadway vamp who was magnetizing her charge, earned the gratitude of Mrs. Hartford, who, she says, promised her rewards beside which the \$100,000 for which she is suing is a mere mosquito bite. But the battle for the soul of Huntington didn't end with the defeat of the siren. Miss King declares that she had all her work cut out to keep the young Croesus from gadding about with the daughters of butchers, bakers and candle stick makers in exclusive Newport.

At last, however, the forces of virtue triumphed, and by getting Huntington interested in a "nice girl" in his own set Miss King claims to have scored her \$100,000 victory.

The identity of the "nice girl" is, of course, open to speculation, but the gossips would have us believe that the title might apply to Doris Duke, heiress to as many millions as Huntington, who is the Hartfords' next door neighbor at Newport.

Mrs. Hartford's side of the story is a direct contradiction of Miss King's claim. The wealthy widow denies the Broadway siren menace ever existed and repudiates any knowledge of ever having hired a moral pilot for her son.

Meanwhile, Newport has something new to chuckle over and, though it cannot recall Miss King, remembers that only recently Mrs. Hartford and her offspring returned from Honolulu, where Huntington had been taken to avoid a budding romance with a grocer's daughter.

Huntington is a sophomore at

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rin' to Go

If you feel sour and sick and the world looks pink, don't realize a lot of Mrs. Little's water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul. Acids often break out in skin eruptions. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to taking the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Remember, a substitute, 25c at all stores. © 1931 C. M. Co.

AUTOIST HURT WHEN ROADSTER UPSETS

Glenn Jones, son of Mr. and Mrs. Thomas Jones, Paintersville, received painful cuts on the face and about the mouth and had several front teeth knocked out when the roadster he was driving upset on the Cedarville-Jamestown Pike Wednesday evening about 10 o'clock. Miss Mabel Sadders, daughter of Mr. and Mrs. Otis Sadders, Jamestown, an occupant in the car, escaped with minor bruises.

The accident occurred when Jones, driving toward Cedarville, failed to negotiate a turn in the road. The machine ran off the road and upset in a field. Passing autoists brought them to the office of Dr. R. L. Haines, Jamestown, where their injuries were treated. The machine was badly damaged.

Pangborn and Herndon Victims of Jap Jingoism

Innocent Landing With Camera, Without Permit,
Gave Super-Trained Secret Service, Bored by
Monotony of Peace, Longed-for Opportunity

HUGH
HERNDON, JR. &
CLYDE
PANGBORN.

W. W. FARLEY

Mrs. HUGH HERNDON, JR.

When Clyde Pangborn and Hugh Herndon, Jr., American fliers, were first arrested on landing in Japan without a permit, no uneasiness was felt for them. But when the "Jingoes," who are rabidly anti-American, stressed the fact that the fliers flew over fortified areas and used a camera while so doing, the Japanese Secret Service started to build a mighty mountain out of a mole hill. The fliers were charged with making photographs in a prohibited area, as well as with violation of the country's aviation laws. They were each fined \$1,025, and it is doubtful if they will be allowed to fly their plane, in which they had hoped to make a non-stop flight from Tokyo to Seattle, out of Japan. The case reveals in startling clarity how very shallow is the doctrine of professed good will that is popularly supposed to be abroad in the world today. Good will is powerful medicine, but it cannot combat suspicion.

TOKIO, Japan, Sept. 24.—The arrest and subtle persecution of the American "round-the-world fliers," Clyde Pangborn and Hugh Herndon, Jr., by Japanese authorities on suspicion of espionage is a perfect example of the little boy who was presented with an air gun but had nothing to shoot at.

Japan has an air gun in its very efficient secret service, but since the conclusion of the World War targets have been very scarce. Thus we can imagine with what glee the faux pas of Pangborn and Herndon was welcomed by the yellow empire.

The Land of the Lotus is very proud of its espionage system. Trained in the methods of Germany's famed Wilhelmstrasse, administered and nurtured by the two most reactionary divisions of the Imperial government, the Home Office and War Ministry, it has experienced only one drawback, lack of objectives worthy of its undoubted efficiency.

In these days when the dove of peace is fluttering its wings all over the world, there isn't much work for the spy-hunting fraternity; so when the American fliers not only landed in Japan without a permit but were also found to be in possession of a camera, the all-seeing eyes and the all-hearing ears of the "silent government" immediately sprang to attention.

At first, the arrest of the fliers caused no uneasiness as it was thought that in this era of good will flights such as a minor point as that of landing without a permit would easily be ironed out. But when the "Jingoes," who are violently anti-American, bared their teeth and started the hurricane in a teacup, things didn't look quite so harmless as observers at first supposed.

From a mere technical breach of the laws of the country, the action of the American aviators assumed the proportions of a foul plot upon the liberty of Japan, under the subtle innuendoes of the jingo press.

Instead of being allowed to make their apologies and go their way, Herndon and Pangborn were placed under the strictest surveillance. The fact that Herndon is an ex-U. S. Army officer, it was pointed out, made his offense of flying over fortified areas all the more reprehensible—especially as he had taken various pictures of the flight.

The pair was indicted on charges of illegally taking photographs of areas taboo to the foreigner, and the case was sent to the District Court for trial. The fine for the offense was \$1,025 for each of the fliers, but that's not the worst of their punishment. If the court decides that the aviators willfully violated Japan's aviation laws they will be prohibited from flying over Japanese territory again.

This order, if enforced, means

partment of State on behalf of Herndon, who is his son-in-law. Herndon married Farley's daughter secretly just before he took off on the world flight. To sum up, it looks as though the popular vogue of "good will" flights has been given its quietus by the action of Japan in this case. Good will is powerful medicine, but it cannot combat suspicion.

Prices a Thrifty Man can understand

Goodyear is the greatest name in rubber. Millions and millions more people ride on Goodyear Tires than on any other kind. That's why, at times like these, with rubber prices at rock bottom, Goodyear can offer values none can match. Here we list some of the amazingly low prices now prevailing on Goodyear Pathfinders. Check the list carefully. See how little it will cost to re-equip your car. Great, sturdy Supertwist balloons, built to Goodyear standards by Goodyear craftsmen, at prices a thrifty man can understand.

\$4.98 EACH

9.60 per pair

29x4.40 (4.40-21) Balloons for 1925-27 Fords, Chevrolets; also Whippets and Stars.

Better Homes the Gift of Electricity and Gas

If convenience and comfort can be accepted as virtues of home life, electricity and gas must be recognized as great factors in making your home better.

There is no inconvenience, no discomfort in the modern home that will not respond to the services of either gas or electricity. Magic services, these... heating, lighting, powering, time and labor-saving devices, providing entertainment, comforting the sick, protecting health. Gas and electricity do them all.

Better homes... the gift of electricity and gas. Use to full advantage the endless services of these modern servants.

The Dayton Power & Light Co.

E. H. HEATHMAN
Manager Xenia District

LEGION TO REQUEST REFERENDUM ON DRY LAW AT CONVENTION

(Continued from Page One)

leader, such as the youthful Mayor Frank Murphy of Detroit, might stampede this convention into demanding either beer or repeal of prohibition.

The bonus issue presented a different situation. Convention leaders were confident the demand for immediate cash payments would be defeated but the proponents claimed victory and were giving the supporters of President Hoover's attitude many hours of preaching in his own pulpit and during the next few months. The first of these services will be held October 4 at the Reformed Church.

Two veteran politicians — Rep. Wright Patterson, a Texas Democrat, and Raymond Field, Oklahoma publisher who directed President Hoover's publicity campaign in that state in 1928—threatened to upset the "apple-cart." They started out Monday to put over their cash bonus and they have sent shivers down the spines of Mr. Hoover's followers. They can't possibly win if an International News Service poll is correct, but they have put up one of the finest political battles recorded in years.

The administration's spokesmen here—Theodore Roosevelt, governor of Porto Rico; Hanford McNider, minister to Canada; and Frank T. Hines, veterans administrator — were fighting with their backs to the wall. Their difficult task of securing an anti-cash expression from the convention was enhanced by the fact that the big departments — Illinois, Pennsylvania, California and Massachusetts — favored immediate payments. They should win, even though the margin of victory is slim.

As for the commander's race, it was all over but the balloting and the shouting. Hall, Henry L. Stevens, of North Carolina!

UNION SERVICES TO CLOSE HERE SUNDAY

Sunday will mark the close of union services of churches of Xenia for the summer session and the final service will be in the form of a farewell for the Rev. S. Russell Burkett, pastor of the Friends Church who is leaving October 1 to assume a charge at Fountain City, Ind. The service will be held at the Friends Church and the Rev. Mr. Burkett will deliver the sermon.

Starting October 4 the two United Presbyterian Churches will have a duo service alternating between the two churches on Sunday evening, the pastor of the church of preaching in his own pulpit and during the next few months. The first of these services will be held October 4 at the Reformed Church.

The Presbyterian, First M. E., Trinity M. E., First Baptist and First Reformed Churches will compose a group to hold union services during the next few months. The first of these services will be held October 4 at the Reformed Church.

NEW CATALOGUER ASSUMES DUTIES

Miss Ruth Siffred, Chillicothe, has been employed as cataloguer at the Greene County District Library to fill a vacancy caused by the resignation of Miss Julia Averell. It was announced Thursday by Miss Katherine Shorey, librarian. Miss Siffred is a graduate of the library school of the University of Illinois and has had training in this line of work in the Dayton public libraries. She has already begun her duties here.

Miss Averell has been employed at the local library one and one-half years. She will leave October 1 for Mansfield to assume a position as cataloguer in the Mansfield public library, where she will work under Miss Mildred W. Sandoe, former librarian here.

TREASURY BALANCE
WASHINGTON, Sept. 24—Treasury balance as of Sept. 22 \$632,535,414.37. Expenditures \$4,451,333.62. Customs receipts \$25,356,163.84.

CRAWFORD COUNTY CURTAILS SERVICE

By reason of a unanimous decision of the county commissioners to discontinue county agent's work in Crawford County, effective January 1, the services of J. E. Bradfute, formerly of Xenia, in that capacity will no longer be required after the first of the year.

Bradfute was also former county agent in Hancock County. The commissioners' action, it was explained, was due to the anticipated revenue decrease as a result of the recent reappraisal of real estate in that county. County agent's work was started at Bucyrus in 1918, four agents having held the position.

MUNICIPAL COURT

TWO GIVEN FINES
Reported by police to have been involved in a fight, Carey McDufford, 46, of 1063 W. Second St., was fined \$25 and costs and sent to jail in default of payment by Municipal Judge E. Dawson Smith. He pleaded guilty to disorderly conduct.

Judge Smith also fined Clarence Tracey \$50 and costs Thursday for drunkenness and committed him to jail for non-payment. The arrest was made by Sheriff John Baughn.

PAROLE BOARD WILL HEAR COOPER CASE

Gilbert Cooper, Cedarville, serving a sentence of from fourteen to twenty years in Ohio penitentiary on a manslaughter conviction, is eligible for a hearing on his application for parole before the state parole board this month. Cooper was convicted March 28, 1930 in connection with the slaying of Caleb Hitchcock, Cedarville, following a quarrel over some traps.

Three other prisoners sentenced from Greene County are also eligible for hearings for parole, two in September and the third in October.

E. A. Manuel, serving a sentence of from one to ten years for felonious assault, and Sanford Miller, serving a two to twenty-year term for auto theft, may be accorded hearings this month. Kenneth Ellicker, convicted of grand larceny and serving a one to seven-year sentence, will be eligible for a hearing after October 12.

LODGE RITUAL FOR DEPARTED MEMBER

Ritualistic funeral services for the late H. E. Schmidt will be held by the I. O. O. F. Lodge at the Schmidt home on N. King St. Friday evening at 8:15 o'clock. Members of the lodge will meet at the I. O. O. F. Hall, W. Main St., at 8 o'clock and march in a body to the Schmidt home.

Mr. Schmidt had taken a great interest in Odd Fellowship during the years he was a member of the local lodge and was instrumental in helping the lodge to obtain the quarters it now occupies.

LEGAL NOTICE

Notice is hereby given in accordance with Section 5606 General Code of Ohio, that the tax returns for the current year have been revised and the valuations completed and are open for public inspection in the office of the County Auditor.

Complaints against any valuation or assessment, except the valuation fixed and assessments made by the Tax Commission of Ohio, may be filed with the County Auditor on or before the time limited for payment of taxes for the first half of the current year.

The first hearing by the County Board of Revision on complaints filed will be held at nine o'clock, December 1, 1931, in Room 3 of the Court House, Xenia, Ohio. Additional hearings will be held from time to time by the County Board of Revision until disposition has been made of all complaints filed.

CHAPTER 45

NATALIE reluctantly pulled herself up from the velvet-smooth grass. The sun was getting up quite high now. The household would be stirring. The little maid Alvin had assigned to her no doubt would be tiptoeing into her bedroom to draw the curtains.

She felt a little pleased at the thought of Marie's surprise to find her out so early.

Natalie was one of those persons who can enjoy fruit, toast, eggs and coffee early in the morning. And the swim she had just had did not lessen that early-morning appetite. Not even the torrid thoughts of Alvin.

Perhaps one was supposed not to get hungry when she was not getting on with her love. But Natalie was not like that. Besides, she had gone to bed without dinner.

But it was so pleasant in the sunshine with the soft breeze. Should she return to the house she would have to take off the snug bathing suit. . . and perhaps Alvin would have a car and chauffeur waiting to take her back to Nita, and New York!

"If I go—! should, at least, like to know I went of my own accord," she definitely decided. "But I can't—I have no money for train fare!"

There were still too many things to plan for her to return to the house, even though she could enjoy breakfast.

She decided she would walk about the dunes, and the long winding beach of yellow sand, which extended beyond the grassy estate of the Brady family.

She would climb the dunes and the wind blow her hair dry. Perhaps she would wave at some boat far out in the bay. . . who was that woman of long ago who waved at passing ships? It did not matter. . . nothing mattered. . . everything seemed mixed up. . . the real and the unreal.

Perhaps later in the day she would have a talk with Alvin. Sunshine like this was made for those who were happy. And that fragrant breeze. But when one was miserable the joyous sunshine and wind only emphasized the hurt.

Natalie half lounged at the top of a dune, lifting the ribbons of her hair to the breeze until it was dry and golden and blew about her head like the golden petals of a large chrysanthemum.

She drew zigzag designs in the dry sand, sometimes using her fingers, sometimes her bare toes.

Could she ever win the man she wanted—other girls had. It seemed that was all she had to look forward to—winning Alvin.

She was letting her thoughts air out. Her brain seemed to be relaxing. She rested her head on her arm where it folded at the elbow. For nearly an hour she had lain prone in the searing sun. She had tried to think what would be best for her to do, but she was no nearer a conclusion.

If it were possible for her to return to New York without any sort of triumph on Alvin's part, her own, she would not be a bit happier.

She always would think of that

moment when he held her so close. . . she could feel his heart beating. . .

Always she would be trying to think out a way to make him care. . . or want to care.

Yet, she knew that as things were it was hopeless, his caring as every girl hopes the man she loves will care. . .

"Please hold your head up a little," a pleasant masculine voice said.

Startled, Natalie turned nervously.

Curiosity and fear mingled in her feelings as she looked down the dune behind her, then to the side.

She was so frightened that it did not occur to her to pretend nonchalance, or what is more effective in such a situation, naivete.

She saw a man sitting in front of an easel. . . thirtyish. . . brown eyes and dark hair, wind blown. . . mouth cut in clean curves. . . white teeth, gleaming in his bronzed face.

He wore a dark blue bathing suit and white duck trousers.

"You make a good model," the sunbrowned man said, his white teeth showing prominently as he smiled.

"I had no idea—anyone—"

"I know you didn't—but I've been here since very early, even before you came along," he answered.

There was certainly nothing villainous in this man's appearance, nothing very remarkable, either.

He was smiling up at her with complete friendliness.

Natalie swallowed hard, unable to answer.

The man got up from his easel and began climbing up the dune to where she sat.

Under his smiling eyes she was conscious of her brief bathing suit, which had not quite dried from her swim in the bay.

It clung compromisingly close to her body, revealing every curve. She hoped this stranger would think the bluish that covered her where the suit left off was only a new sunburn.

She started to get up and try to run away before he reached the top of the dune where she was. She half rose but he detained her with:

"Please don't leave. I didn't mean to run you away from your sun perch."

He came nearer, the wind blowing his tousled hair.

"Besides, I've not finished my picture of you."

She could not help smiling in her confused surprise.

"Won't you come have a look at yourself?" he persuaded, his friendly tone of voice making her feel more at ease and less timid in the form fitting suit.

"I guess I can't resist seeing myself as you've seen me," she acquiesced.

Natalie got up and started down the dune toward the easel. She felt his eyes appraising her as she walked on the moist sand, cautiously picking her way as her feet were tender and unaccustomed to the pebbles and bits of broken shells.

She always would think of that

moment when he held her so close. . . she could feel his heart beating. . .

Broadcast Will Herald Hospital Radio Outfit

By MILDRED MASON

THE completion of a radio receiving system in Bellevue Hospital, New York, marking the end of the first step of a campaign to install similar systems in the twenty-six municipal metropolitan hospitals, will be formally heralded by a broadcast over an NBC network Saturday. Officials of New York City, the Radio Corporation of America and the Daily Mirror and a group of favorite radio stars of the NBC network will participate in the program over an NBC-WFAP network from 3:30 to 4 p. m.

The system will be presented by Emilie H. Gaudreau, managing editor of the Daily Mirror and a city official will accept the system on behalf of the city. Graham McNamee will describe the system. Among radio stars expected to take part are Rudy Vallee and his orchestra, Jessica Dragonette, the Sisters of the Skillet, Little Jack Little and Russ Columbo. Five hundred receiving sets operating through this receiving system have been installed in the hospital.

Present "Merry Widow," by Franz Lehár, will be revived in miniature by the Old Reliable group over station WLW, Cincinnati, Friday from 7 to 7:30 p. m. Vocal selections during the program are provided by a sextette, a male quartet and mixed quartet and are supported by a full concert orchestra.

Comedienne, will be guest artist on the Nestle's program Friday evening at 7 o'clock through station WCKY, Covington. Among the musical numbers to be heard on the program will be "I was True" and "Bend Down Sister."

To Salute City. The RKO Theater of the Air will broadcast a salute to Radio City Friday night during that program from 9:30 to 10 o'clock from the Radio World's Fair in Madison Square Garden. The program will be heard locally through station WSAI, Cincinnati.

Want To Dance? Dance orchestras recommended for Friday evening are: WCKC—Jacques Renard's Orchestra on Camel Quarter Hour at 6:45 o'clock; Louise Panico Orchestra at 11:15 o'clock; WSAI—Josef Cherniavsky's Orchestra from Hotel Gibson at 10:45 p. m.; WLW—Icyest Jamboree (Murray Horton's Orchestra) at 8:15 o'clock; Wildeson's Wildcats at 9:45, Castle Farm Orchestra at 11:30 and again at 12:30 a. m.

He's A Go-Getter! "What this country needs," remarks Ted Weiss, popular NBC orchestra leader, "is more go-getters." Ted gives his example of a go-getter as the lad who finds a worm in his apple and has fish for supper!

BIG SISTER—Which Relieves Aunt Ellen's Mind

By LESLIE FORGRAVE

Ethel Kenyon (lately Mrs. Edward Bennett) is to have a part in the Fox picture, "Cheating." John Bennett left the hospital last Thursday. Barbara Stanwyck has a new five-year contract at First National, with no options coming up until the third year. Negotiations are on to persuade Columbia to let her make one picture there, instead of three. This would indicate that Barbara is not deserting the films. Walter Winchell to the contrary.... Ann Harding has never bleached or waved her hair.

Thornton Freeland, director of "Shimmer," is to do the Sum Sumermeals—a picture for Universal.... Charlotte Bird, who was reported engaged to Richard Dix when they were both at Paramount is battling her way back to health in a sanitarium.

Edmund Lowe, withdrawn from "Cheating" and "Disorderly Conduct" because of an ultimatum issued by his physician, will be out of pictures for at least two months, it is said.

About 200 Xenia women showed enough interest in the plan to form a Y. W. C. A. here to attend a meeting in the First U. P. Church.

Another local bowling team has been organized and will be known as the "Southpaws," all the members being left handed.

Mr. Ernest Collins, near Xenia, left for Seattle, Wash., where he has obtained a position.

Ralph Wolford, Cedarville, sustained an eye injury while assisting in repairing some machinery for the paper mill.

SEE THAT
WOMAN CROSSING

You can never tell about a woman, and even if you can, you shouldn't.

When preparing chicken for creaming, keep the skin separated and run it through the food chopper. It can then be added to the creamed mixture without anyone recognizing it.

Three-in-One 'Depression Dress'

For Economy in Milady's Wardrobe

Model Designed by Annette Simpson, American Fashion Creator Who Operates in Paris, May be Altered in a Moment for Morning, Afternoon or Evening.

FOR MORNING FOR AFTERNOON FOR EVENING

That there are more ways than one for making your income fit your wardrobe, was recently demonstrated by Annette Simpson, the only American fashion creator working in Paris. Mrs. Simpson designed a dress which, with a few deft touches, can be transformed into a correct morning, afternoon or evening frock. Not only is the new creation a money saver, it also makes for economy in wardrobe space and is a blessing to those to whom time is valuable. In these days when the shadow of depression has fallen across the world of clothes in common with the world of everything else, the three-in-one dress should be a sure-fire hit.

By ALICE ALDEN
NEW YORK, Sept. 24.—Enter the twenty-four-hour frock and jewelry to match. It comes to us via Paris, where it has been introduced not by some brilliant Paris

designer but by the only American woman who creates clothes in Paris. She is Madame Annette Simpson and she is paid a dazzling salary by the conservative house of Mirande to be their head mod-

elliste. Strangely enough, Mirande does not have many American clients. She creates for such patrons as the former Queen of Spain, the Queen of Jugo-Slavia and other aristocratic ladies of continental

Europe. And they are all content to be dressed by an American woman who creates clothes that are utterly individual to their type. Mrs. Simpson has not had an easy task to storm the citadels of fashion. But when it was discovered that she had a mastery of her profession, the leading designers in Paris accepted her as one of their own. She has had a large business here and says that her royal clients in Europe are far less fussy than many of the women whom she dressed here. All queens want, says Mrs. Simpson, is clothes that will intensify their good points and minimize their defects, and she insists that she has never been stared at through a lorgnette in the manner that Mrs. Park Avenue is apt to do. Just queens out to do their shopping and very nice and pleasing about it.

Although Mrs. Simpson is connected with a house that caters to a wealthy, fastidious trade, she has designed a frock that can be worn for morning, afternoon and evening, and be correct for each time of day and occasion.

She has with her in America, some perfectly grand models of her new idea. Thus a perfectly tailored frock of dull black silk, steps out ready for the morning walk or shopping. It is semi-form fitting and has a shallow V neck. With it is worn a single strand of pearls. Comes lunchtime and then a matinee. Miss Economy takes a belt from her handbag and her dress becomes more form-fitting. A series of buttons permits her to open the sleeve to the elbow and a tiny ribbon inside the neckline allows the V to become slightly deeper. The tiny veil that was folded inside the brim of her hat is let down, and her trusty handbag again furnishes some more strands of pearls that can be added to the single strand and thus make it a more elaborate affair. And for an informal dinner, all that remains to be done is to roll the sleeves up still farther, where they button into a puff sleeve, and add a girdle of velvet in lieu of the belt.

Then some more strands and a most elaborate clasp to the neck-

lace and there you have Miss Economy perfectly dressed for the evening. Her shoes are black suede pumps, suitable for almost all occasions. To an interested group that included men as well, Mrs. Simpson caught, fitted and pinned together a charming evening gown in considerably less than five minutes. It was an American adaptation of an evening frock of the Eugenie type. Incidentally, Mrs. Simpson explained that the Eugenie fashions were only for the young, slim and charming and that the mature woman should avoid them. She advises such women to wear clothes that are picturesque or subscribe to some historical period. And above all, don't stick a feather in your Eugenie hat. The Titan haired Empress never did, but she caught an Emperor just the same.

BOWERSVILLE

About seventy-five friends and relatives helped Mrs. Carl Johnson remember her birthday Sunday

when they accompanied her home from church bringing with them baskets laden with good things to eat.

Mrs. O. E. White spent part of last week with her sister, Mrs. Har-ley Bryant of near Jamestown.

Mrs. Ruth Hiney of Detroit, Mich., spent the past two weeks with her mother, Mrs. Alonzo John-son.

Born to Mr. and Mrs. Willard Clark on Wednesday a seven and one-half pound son, who will answer to the name of James Frank.

Mrs. Florence Emerick and little son of Dayton is spending some time with her aunt, Miss Rebecca Bowermaster and other relatives.

Mrs. Wm. Baker still remains quite ill at this writing.

Mr. Jesse Ary and family and Mrs. Julia King were guests of Dayton friends Sunday.

Mr. and Mrs. Wm. Gerard spent Sunday with his brother, Mr. and Mrs. D. L. Gerard. Mrs. William Perkins was also a guest in the Gerard home part of last week.

Mrs. Verner Bock of Columbus, is the guest of her parents Mr. and Mrs. Wm. Baker.

RARE ART PIECES TO GO NEW YORK, Sept. 24.—An art collection valued at from \$1,000,000 to \$2,000,000 is to be sold during the coming season piece by piece, according to a recent announce-ment. The collection, that of the late Thomas B. Clarke, includes twenty-nine works by Gilbert Stuart, among them the famous "Washington," painted from life.

There is no substitute for S.S.S.

Secure S.S.S. from your own druggist... with few exceptions druggists are ethical and conscientious, and will not offer a substitute.

No medicine has the same formula as this time-tested Blood Tonic... nor does any other concern gather the same roots with their own trained collectors and extract the active medicinal principles, unchanged, in their original fresh state—this is the secret of S.S.S. . . . there is no substitute.

S.S.S. restores the appetite and builds up the red-blood-cells

TAKE S.S.S. as a tonic and notice how much better you will "feel" . . . it has effect in aiding Nature to build red-blood-cells and creating an appetite for food. These two things working together aid the human body in its struggle for health and vitality. Millions of people approve its value.

Why not start taking S.S.S. today? . . . the larger size represents a price saving.

They roll easier...
smoke better...
and stay put with P.A.

It's fun to roll your own with Prince Albert. Just toss some fragrant smelling P. A. into a makin's paper—spread it out and roll her up—and there you are! No fuss or muss or spilled tobacco—because P. A. is crimp-cut. That's why it rolls so trim and smooth. It stays put too—to the last satisfying puff. It's a grand smoke, Men. Cool as a jury hearing the evidence. Sweet as a verdict for your side. Mild as the milk of the coconut, yet with that full, rich character that rings the bell on every pull. Try rolling your own with Prince Albert—it's smart these days, and how delicious they taste. And in a pipe—there's simply nothing as satisfying as P. A.

—AND THE PAPERS ARE IMPORTANT, TOO. The perfect combination for home-rolled cigarettes: P. A. for filler and OCB for wrapper. The world's finest papers, made at the famous Bollore mills in France expressly for R. J. Reynolds Tobacco Company. Book of 150 leaves for 5¢. Buy OCB's with good old P. A. and you're all set to be satisfied.

2 full ounces in every Tin
No other tobacco is like it

HOLD SUSPECTS IN COLLINGS CASE

LEGION TO REQUEST REFERENDUM ON DRY LAW AT CONVENTION

Resubmission To States
Sought; Stevens To
Be Commander

(Copyrighted, 1931, By International
News Service.)

DETROIT, Sept. 24.—The American Legion today will denounce the eighteenth amendment, calling for its resubmission by congress to the states for popular referendum, reject the cash bonus plan, and elect Henry L. Stevens, youthful North Carolina attorney, as its new national commander on the first ballot.

This ambitious program confronted the Legion convention after a hectic series of all-night conferences, caucuses and confabs. The outlook, as revealed by an International News Service survey, was:

Prohibition.—Overwhelming approval of the resolution, declaring the eighteenth amendment has "created a condition endangering respect for law and the security of American institutions," and putting the great veterans' organization on record as favoring "submission by congress of the repeal or modification of the present prohibition laws to the several states, with a request that each state submit the question to the voters thereof."

Cash payment of bonus.—Defeat of cash demand by a majority of approximately 150 votes, unless the convention is stampeded by frenzied oratory into rebuking President Hoover. An early morning poll by International News Service showed an approximate vote of 177 to 635 against the cash demand. Both sides were claiming victory.

National commander.—Election of Henry L. Stevens, of North Carolina, on the first ballot, assured, even though his opposition staged the bitterest fight in all the history of the Legion.

The action of the Legion in assailing the eighteenth amendment will be precedent shattering, since it will throw the Legion—even though half-heartedly—into the fight to modify prohibition. Before it acts, the Legion will debate the wet and dry question to its heart's content, smashing all its traditions, since the subject was barred from all preceding conventions as a political issue beyond the scope of its constitutional activities.

The wets will win, but they maneuvered into accepting a mere declaration in favor of a referendum when the convention might go on record as favoring either repeal or legalization of beer. Indeed, one good orator may yet upset the plans of convention leaders and turn the referendum recommendation into a vigorous, vibrant demand for repeal of the eighteenth amendment.

A detailed history of the resolutions committee's deliberations may reveal a new problem which the national political parties, as well as wet and dry organizations, will have to face in the future.

This Legion convention found the wets presenting a demoralized and badly split front. They couldn't agree on what they wanted, being divided over repeal, modification, legalization of beer, and referendum. The wets merely stood by letting the drys do the talking until every suggestion was beaten except the referendum. Then, the drys stepped in and helped draft the resolution to be submitted to the convention.

This may all be overthrown on the convention floor. A forceful

(Continued On Page Nine)

AUTO ENTERS PROBE OF DENTIST'S DEATH

MANSFIELD, O., Sept. 24.—Detectives trying to solve the six-day-old murder of Dr. Harry G. Roby, Mansfield dentist, today investigated a report that an automobile bearing foreign license plates was seen in the vicinity of Roby's home the night he was slain.

That was the only new clue authorities were known to possess, and they admitted it might be of no importance. With the mystery almost a week old, officials apparently had made little progress in their search for Roby's slayer.

A purported letter of warning to Roby, which officials have not been able to find, and his reported companionship with a blond woman were the only other circumstances surrounding the case known to police, it was said.

PUBLISHER HURT

SPRINGFIELD, O., Sept. 24.—Edgar L. Morris, Springfield newspaper publisher, was recovering today from injuries received yesterday when he was struck in the eye by a golf ball at the Springfield Country Club course. The ball, which rebounded from a tree, shattered the publisher's eye-glasses.

EDISON IMPROVES

WEST ORANGE, N. J., Sept. 24.—Thomas A. Edison continues to improve, was the word given out at his West Orange home today, despite rumors circulated yesterday that the aged inventor had suffered a relapse.

JAPAN PREPARES STATEMENT TO DEFEND ATTACK IN MANCHURIA

Amplifies Message To League Of Nations Council;
Bandit Activities Continue; Japan
Denies Massacre Of 300

TOKYO, Sept. 24.—The text of a statement to the world powers, setting forth Japan's position with regard to the conflict in Manchuria, was approved by the cabinet at its regular session today.

The statement was expected to amplify the communique dispatched to M. Yoshisawa, Japanese delegate to the League of Nations council, and read before a secret session of the council yesterday.

With negotiations for settlement of the dispute proceeding satisfactorily, fears of a new Sino-Japanese clash in Kirin City were lessened when Chinese troops delivered thousands of rifles and 10,000 rounds of ammunition as well as machine guns and cannons to the Japanese commanders.

Meanwhile, bandit activities in the occupied area continued.

Thirty Japanese were reported killed in Taoling.

The charge made by the Chinese Nationalist government at Nanking that Japanese soldiers had massacred 300 women and committed various outrages during the seizure of Mukden was characterized as a "complete fabrication" by General Sugiyama, Japanese vice-minister of war, here today.

"Nanking drew the picture from the habits of its own soldiers," Sugiyama said, "Japan ordered its troops to take utmost care of civilians, particularly women and children, during the occupation."

THIS IS BETTER

COLUMBUS, O., Sept. 24.—Cooler weather which rode into the state on the tail of a heavy rainfall made it "more like living" today. Weathermen predicted that the break in the heat wave was permanent and that fair and cooler weather is on tap for a while.

AKRON MAKES FIRST FLIGHT WEDNESDAY AS TRIAL SUCCEEDS

Experts See Commercial
Future For Dirigible
Of This Type

AKRON, O., Sept. 24.—Unanimous prediction from authorities in lighter-than-air craft that ships of the size and construction of the United States airship Akron would soon become a recognized means of commercial transportation today followed the successful maiden voyage of the Navy's new queen of the air.

Defying somewhat threatening weather conditions at the start, the Akron, world's largest dirigible, made a flight of nearly four hours over her home city and Cleveland with 133 persons aboard, the largest group ever to fly in an American Zeppelin.

After hugging close to her gigantic airdock more than two hours, Captain Charles E. Rosendahl pointed the nose of the huge silvery hulk northward toward Cleveland where the ship circled the business district before returning to her dock. Fully an hour was spent in landing the bulky craft in the gathering dusk. Twice the ship nosed in but was unable to connect with her massive mooring mast.

Possibility that the second test flight of the giant ship will be held this week was seen as Navy officials declared the first trip an unqualified success and announced the next voyage A. Moffett, chief of the navy bureau of aeronautics, to her dock. Fully an hour was spent in landing the bulky craft in the gathering dusk. Twice the ship nosed in but was unable to connect with her massive mooring mast.

"There is every reason to believe this type of ship will be a most successful one and will pave the way for commercial lighter-than-air transportation," Skipper Rosendahl declared as he stepped from the narrow hatch at the bottom of the control at the end of the flight.

Lending support to Rosendahl's statement was the opinion of Rear Admiral William A. Moffett, chief of the navy bureau of aeronautics, that "I am sure she will demonstrate the great value of air ships for commercial purposes." Practically, the Akron returned to America world supremacy in the dirigible field.

Paul W. Litchfield, president of Goodyear-Zeppelin corporation, the builders, saw the Akron's successful flight as the "beginning of the realization of our dreams to establish commercial lighter-than-air transportation on a scheduled basis."

Others aboard the Akron who joined in hailing the Akron's successful flight were Secretary of the Navy Charles Francis Adams, Assistant Secretary of the Navy in charge of aeronautics David S. Ingalls, Rear Admiral G. C. Day, president of the naval board of inspection and survey, and Karl Aronstein, chief engineer for Goodyear-Zeppelin and noted engineer.

More than 10,000 persons swarmed the hillside surrounding the fenced off airport to see the giant Akron take the air for the first time. As the silvery bag shot upward, a deafening cheer went up from this enthusiastic throng which could be heard above the roar of the motors at the airdock, half a mile away.

Four more test flights consuming at least a total of another 71 hours in the air must be held before the navy will accept this large dirigible for the American fleet. Each future flight will be for a specific purpose such as testing speed, turning and lifting ability, endurance and the testing of a myriad of minor parts on the ship.

FOUR-YEAR-OLD KILLS BROTHER

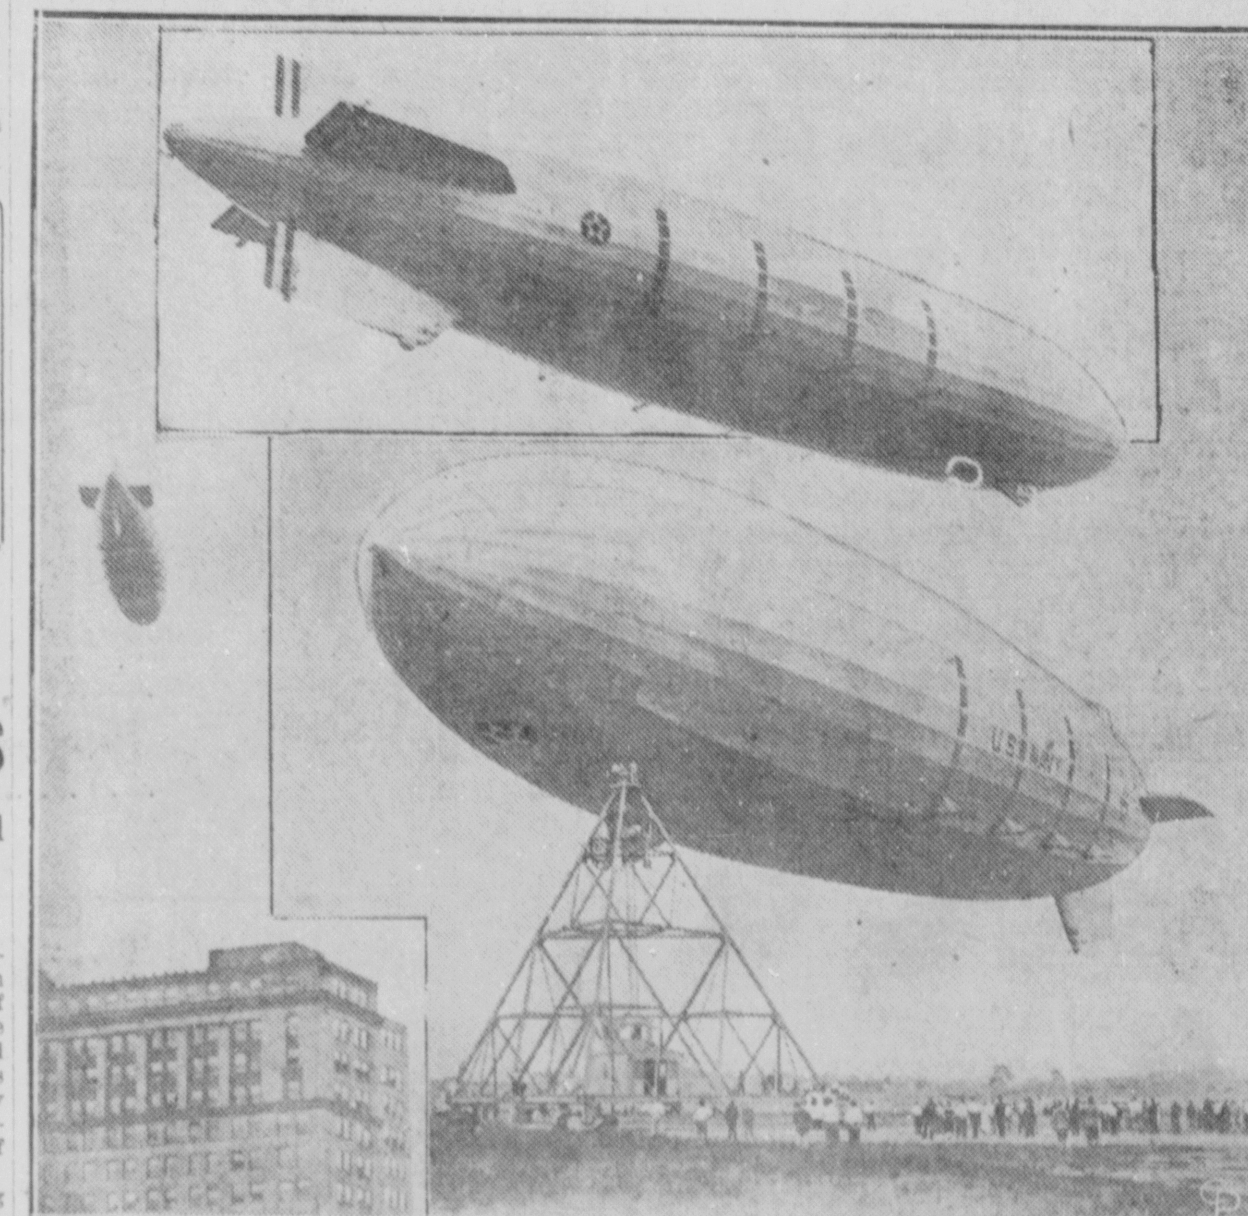

GREENVILLE, O., Sept. 24.—Four-year-old Richard McNutt today had accidentally shot and killed his two-year-old brother, William, with a rifle he found in a neighbor's automobile.

Richard found the gun while he and his brother were at play. William died while being rushed to a hospital.

WILL NAME JUDGE

COLUMBUS, O., Sept. 24.—A successor to Judge Homer Z. Bostwick, ousted from office by a special court which found him guilty of misconduct in office and gross immorality, will probably be named by Governor George White not later than Saturday, it was indicated today.

VIEWS OF GIANT DIRIGIBLE ON FIRST FLIGHT

Three views of the U. S. S. Akron, giant dirigible built for the navy, as she soared over northern Ohio on her first test flight with a passenger list and crew totalling 133 persons. To the right the great ship is seen breaking away from her mooring mast at the Akron airship dock, and left, as she appeared over the top of a Cleveland skyscraper a short time later. Top view is a close-up in the air.

GENE TUNNEY MAKES LITERARY DEBUT IN SERIES ON SOVIETS

Magazine Article Plays
Atheism Of Russian
Rule

NEW YORK, Sept. 24.—Gene Tunney, former heavyweight champion of the world, threw his hat into the literary ring today when the first of a series of articles by him appeared in Collier's weekly.

To the surprise of the sporting world Tunney started his literary career with a serious treatise on Soviet rule in Russia.

The former ruler of the cauliflower industry, spending his vacation in Maine, was reached by phone and asked bluntly if his future writing activities were to be confined to economic, social and political subjects.

In reply to a question, "Have you abandoned boxing as a subject for discussion?" Tunney answered with a laugh that he was already at work on a series of articles dealing with his activities in the squared circle. One of these will break his long silence on the matter of the famous "long count" in his second fight with Jack Dempsey.

After making it plain that he had no intention of completely abandoning sports as a topic in his writing Tunney explained why he had begun what promises to be an interesting writing career, with an article on Russia.

"Frankly," he said, "the subject of Russia is one which is uppermost in my mind. I came out of Russia where I spent some time this summer with many of my opinions completely overthrown."

The things that intrigued and in many ways aroused his indignation were what he called "boishevik injustices, intolerance and atheism."

Yet Tunney has no blanket condemnation of Russia. He still thinks that America has much to learn from the Soviet.

"Somewhere between what America is aiming at and the Russian goal is the road our children will take," he said, "Surely Christianity will not be destroyed by atheism nor will western civilization succumb to robots. But I see our government of the future borrowing liberally from the Soviets' communism."

"I believe," Tunney continued, "that after Russia has become politically secure and sufficiently industrialized to be economically independent there will arise aristocrats, Chekovs and Dostoevskis and other independent thinkers who will oppose the industrial semidictatorship now prevailing just as the older masters fought Tsarist slavery."

VETERANS AND GOVERNMENT HAVE BETTER UNDERSTANDING

By FLOYD GIBBONS,
Journalist and Radio Reporter
(Copyright, 1931, by International
News Service.)

DETROIT, Sept. 24.—Hello everybody. Delegates to the American Legion Convention, who begin to file out of Detroit tonight will have accomplished an important thing. The convention has been no peace conference with the holders of the nation's purse strings, but a better understanding between the government and the veterans has been founded.

Claims of the faction of Legionnaires who thought they deserve

immediate financial aid in this period of stress, have been admirably presented by accomplished orators. No raucous voice has been raised in demands that had no foundation of reason. No oratorical fireworks. Advocates of a revision of the bonus payments stated unemployment facts as six hundred Legion posts had found them, replies from the guardians of public funds were easily calm. It is like a bitterly fought lawsuit being settled out of court with everybody shaking hands—for the period of this emergency at least.

The veterans pointed out that \$10,000, of their number are in need and have no other agency to which they may turn except the federal government. The government agents showed that two and one half million dollars are being paid out daily to men who served their country. With eight hundred million dollars in loans on adjusted service certificates, two billions have been spent since last March.

The ancient Greek invented the bonus for soldiers. Alexander the Great, with his conquering army to pay off, probably considered it a hopeless job. The United States, at the end of the Civil War, thought itself faced with an unsolvable pension problem. There were four hundred thousand veterans in the Grand Army of the Republic, twenty-five years after the Civil War. Now there are more than twice that number in the American Legion, alone.

The convention closing today has lifted the boys of 1917 and 1918 out of the class of mere dependents. They have been helping themselves. Helping to find or create work for their own members. Helping in the peace time crises of their own communities.

Speeches such as those of George L. Berry, of Tennessee, Howard P. Savage, of Chicago, General Frank T. Hines, administrator of veterans' affairs, and many other leaders, voice the future policy of the Legion. It is going to consider itself in full partnership with the government.

KENTON NEWSPAPER CALLS FOR COOPER

KENTON, O., Sept. 24.—The first public call to former Gov. Myers Y. Cooper, urging him to be a candidate for reelection in 1932, circulated through the state today.

Calling Cooper "Ohio's hardest working governor," the Kenton News-Republican, in a front-page editorial, declared that "the call is loudly and distinctly for Myers Y. Cooper—a man who has proved he can govern and will govern well."

FARMER KILLED AND CONSTABLE WOUNDED BY ALLEGED THIEVES

LIMA, O., Sept. 24.—Aroused by the lawlessness of hog thieves who turned murderers last night in resisting capture at the farm of Leon Mobowck, officials were expected to declare a relentless war today against foraging.

A hog thievery in this district reached its climax last night when Mobowck was shot to death and Frank Conway, 55, Sugar Creek

TWO QUESTIONED IN PIRACY PROBE DENY GUILT; ONE INSANE

Victim's Wife Will View
Pair; Attorney
Optimistic

MINEOLA, N. Y., Sept. 24.—Two men who are said to resemble closely the assailants who beat Benjamin P. Collings to death aboard his cruiser Penguin were being detained today in the county jail here.

District Attorney Alexander Blue, of Suffolk County, who questioned the men last night, seemed hopeful today that the two prisoners might furnish a clue to the mystery which has baffled police of two states.

"It looks very good," he said early today in answer to a question about how his investigation of the case was progressing. He indicated that Mrs. Collings may be brought from her Stamford, Conn., home today to confront the two men.

The two men denied today that they had had anything to do with the murder. Both offered alibis to account for their presence on the night of Sept. 9, when the crime was committed.

One of the two being held is Timothy J. Quinn, 43, a powerfully built man who has at various times been confined in three asylums. He has been questioned three times by the police in connection with murder cases, it was said. Quinn was formerly a sailor and once owned a canoe, it was said today.

The other man was described as about 24 years old, but his name was withheld. It was said, however, that the two resembled the two murderers of Collings, as they were described by his wife.

Quinn and his companion were arrested last night in Long Island City at the home of Quinn's brother.

Mrs. Collings spent most of yesterday with Munder and De Martini visiting various points on the sound in a boat, in an effort to clear up such parts of her story as still remain obscure.

VETERAN ENDS LIFE DUE TO ILL HEALTH

NEWARK, O., Sept. 24.—With \$557 government disability compensation in his pocket, William T. Johnson, 46-year-old World War veteran, today had hanged himself, thirteen years after having been declared dead by the U. S. War Department.

A milkman found the body hanging from the limb of a tree. A new halter rope, had served as the noose.

In 1918 Johnson was reported as dead by the war department. Three years ago, with the aid of Lieut. Paul Jackson, a Newark soldier, Johnson officially established the fact that he was alive. The confusion in names resulted when another soldier died in a hospital from which Johnson disappeared. It later was shown he ran toward the trenches while in a delirium.

Johnson's suicide was said to have been caused by ill health he suffered after having been gassed during the war.

TWIN BROTHERS ARE CROSSING VICTIMS

NORWALK, O., Sept. 24.—Two young men, tentatively identified as Niles and Nelson Snyder, twin brothers of Louisville, O., near Cincinnati, were instantly killed near here today when their truck was demolished by a Big Four passenger train.

Bodies of the victims were badly mangled, making positive identification impossible immediately. The tentative identification was made from effects found in the wreckage.

The heavily-laden truck, driven by one of the dead youths, was wrecked and the locomotive of the nine-coach train was nearly derailed in the crash. A second engine was rushed to the scene and the train continued on to St. Louis an hour late.

EMBEZZLER LOSES

MT. GILEAD, O., Sept. 24.—A term of from one to ten years in the Ohio Penitentiary today awaited Clyde Romans, former secretary and treasurer of the Morrow County Farmers Mutual Insurance Co., at Cardington. He was accused of embezzling \$5,750 of the company's money and the appellate court ruled he must serve the sentence.

ATTEMPT AIR RECORD

MIAMI, Fla., Sept. 24.—Flying from New York in six hours and eight minutes, Lou Reichers and Captain Ugo D'Annunzio, attempting a record flight to Havana, landed here at 8:53 a. m. today.

YOUNG INVENTOR IS CREDITED WITH AID TO NEW TELEVISION

BUZZARDS BAY, Mass. Sept. 24—A remarkable achievement in radio engineering, one which it is predicted will bring television from its present status to a great enterprise is in prospect here with Harry Selfredge, 28-year old Littleton scientist, holder and inventor of the famous-to-be feat.

So remarkable was Selfredge's invention that following a private demonstration at which several nationally known radio engineers were present a \$100,000 offer was made the young scientist for his plans. He refused the offer pending further improvement of his invention.

Spurred on by his present success, Selfredge will carry on further experiments with his apparatus on Cape Cod which he calls an ideal proving ground for any sort of radio transmitting because of the static conditions found there. He wants to prove that his set can overcome most unfavorable conditions.

Explaining his apparatus, the young inventor pointed out that it is revolutionary in character and used without Neon tubes, scanning discs, and other numerous parts which are one of the chief drawbacks of present television broadcasts. It is capable, he says, of transmitting scenes half a mile away.

The pictures released a half mile distant came in during the experiment on the receiving apparatus as if projected from a movie projection machine. The present defects of television are said to be centered in the Neon Glow from tubes used in broadcasting pictures and in the shadows and deformities of pictures received by means of a scanning disc. In the latter case, dirt clogs the disc holes and distorts images.

Selfredge's experiments are carried on at much lower wave lengths than now used for picture transmission. He plans to experiment with ultra-short waves of less than one meter to broaden the scope and to avoid conflict of images being broadcast simultaneously on neighboring waves.

JUDGE SOLVED PROBLEM
ALAMOSA, Colo. Sept. 24—Both Mr. and Mrs. Pablo Martinez will serve sentences of sixty days each in the county jail here, and the need of their six children for parental attention will not interfere.

Both were convicted of selling liquor. In sentencing them the problem of who would take care of the Martinez children puzzled the judge. He finally hit upon the expedient of permitting Mrs. Martinez to serve out her sentence first, while Pablo tends the children. When her term is ended she will return home and care for the young ones while Pablo serves his time.

The Flower Parade

Written for Central Press

U. S. Department of Agriculture

DIVIDING ORIENTAL POPPIES

If you have not already done so, now is an excellent time to divide the roots of your Oriental poppies, to increase your supply of this flower, horticulturists of the Bureau of Plant Industry advise.

Handle the poppy roots carefully to make sure of the best results. Oriental poppies are ready for division as soon as the leaves die and the plants become dormant.

If your poppies are not yet dormant, here is a suggestion: Mark now the ones you plan to divide. If you do not do this there is a chance that the dead leaves may be raked away and you will be uncertain of the location of your poppies when you get ready to divide them.

There are two general methods of dividing the poppy roots. Sometimes the roots naturally develop several crowns each. In such cases it is easy to divide them, pulling the crowns apart and then slicing the root sections for each with a knife. Ordinarily, however, there is only one crown. Then the usual plan is to cut the root crosswise into several sections. Each of these sections will then become the source of another poppy plant.

In the northern part of the country, after the roots are divided they

are often placed in sand in a cold frame and either left to grow there the next spring or else they are planted in the flower garden in the spring. They are not likely to make a heavy growth the first year and for that reason may be left in the cold frame until the following fall for the final transplanting.

In the south the roots may be set out in the fall. They will make a slight growth the same season and be ready for very early growth the following spring.

SPRING VALLEY

Mrs. Kate Boyce and daughters of Dayton spent the week end with Mr. and Mrs. G. V. Sims. They attended the home coming at Mt. Holly Sunday.

Mr. and Mrs. J. T. Walton and family and Mrs. Dorothy Leshar spent Sunday with Mr. and Mrs. Lee Peterson and family near Cedarville.

Mrs. Minnie Wooley entertained at Sunday dinner Mr. and Mrs. Roy Haines and family and Mrs. Elizabeth Haines in honor of little Jack Haines' sixth birthday.

Mrs. Kate Evans returned to her home here Saturday evening after spending a week in Waynesville.

The members of the Miars family with their families of Clinton County and Mrs. Wilson and son of Winchester, Virginia, met at the home of Fremont Miars near

Spring Valley to celebrate his seventieth birthday Thursday, September 17. The three cousins are the only descendants remaining of the Miars family who came from Shenandoah Valley, about the year 1800.

Mrs. Nettie Fulkerson and Mr. John Walton attended the funeral services of Mrs. John Barrett at her home in Indianapolis, Ind., Monday. The Barrett family lived here several years ago. Mrs. Barrett, before her marriage taught in our public school.

Mr. and Mrs. Forest Hough and children of Waynesville moved Thursday into the Dall Salsbury property on W. Main St.

Friends and relatives here received word of the death of Mrs. Mary Ennis of Van Wert, another former resident of Spring Valley. She was buried at Van Wert.

Mr. and Mrs. James Churlette and family of Xenia were week-end guests of Mrs. Emma Simson and son.

Mr. and Mrs. Max Compton and children were Dayton visitors Saturday.

A playlet "Jealous, Certainly

Not" will be given in the Community Room Saturday night, Sept. 26. Everyone invited.

Mr. and Mrs. J. P. Kreitzer and Mr. and Mrs. George H. Smith and son returned home Sunday from a ten days fishing trip in Canada.

City Manager and Mrs. M. C. Smith and granddaughter and Miss Emma Dadds of Xenia, were Sunday guests of Mr. and Mrs. J. M. Smith and family.

Miss Mary Mangum of Xenia spent Thursday night with her cousin, Miss Helen Kyne. Jean and Phyllis Compton spent Thursday evening with Colleen Kyne.

Mr. and Mrs. Fred Carter and son visited Mr. and Mrs. George Benson Saturday. Visitors on Sunday were, Mr. and Mrs. Will Bootes and daughter and Mr. and Mrs. Kella and baby.

Mr. and Mrs. Victor Darnell of Dayton, were Sunday guests of Mrs. Jane Hood and family.

Class 2 of the Friends Sunday School met at the home of Mrs. Arch Copsey Thursday afternoon. After the business session a social

time was enjoyed. Later a delicious covered dish supper was served. The hostesses were Mrs. Arch Copsey, Mrs. Dar Walton, Mrs. Mellie Benson and Mrs. Carrie Bagford.

Mrs. Frank Thompson died at her home near Mt. Holly Sunday night. Funeral services were held at the Friends Church Thursday afternoon with burial at Spring Valley.

D. A. R. Members Attend District Meeting

ONE hundred and forty members of the southwest district of the Daughters of the American Revolution of Ohio, which includes twenty-eight chapters, attended a district meeting at the United Presbyterian Church in Cedarville Wednesday. Members of Cedar Cliff Chapter were hostesses for the occasion.

The meeting opened at 10 a. m. and Mrs. Frank Creswell, regent of Cedar Cliff Chapter, extended greetings to the group. Roll call was answered with greetings from each chapter of the district represented at the meeting. The entire session was devoted to reports of the outline of the work of the D. A. R. for the coming year as presented by various national and state chairmen. Mrs. Charles A. Meyers, Terrace Park, Cincinnati, state chair-

ENTERTAINING PROGRAM PRESENTED AT MEETING

An entertaining program was presented by several of the members when the Women's Missionary Society of the Friends Church met at the home of Mrs. Ralph Heaton, S. Detroit St., Wednesday afternoon. Twenty-seven members and guests were present.

Mrs. Cora Davis conducted the devotional period and a chapter from the study book, "A Cloud of Witnesses," was reviewed by Mrs. Fred Ervin. Mrs. Davis read a tribute to the life of Evangeline Ream written by the board of the Friends Rescue Home and a reading, "Team Work," was given by Mrs. W. G. Horner. Mrs. Richard McClelland presented a short musical program.

Mrs. S. Russell Burkett, wife of the pastor of the church, who is moving soon to Fountain City, Ind., was presented an array of gifts by the guests. Later a refreshment course was served by Mrs. Heaton assisted by Mrs. Floyd Anderson and Mrs. Carlton Anderson.

FAREWELL DINNER BRIDGE IS ENJOYED

For the pleasure of Miss Julia Averell, cataloguer at the Greene County District Library who is leaving for Mansfield October 1, Miss Katherine Shorey, librarian, entertained a group of Miss Averell's friends at a dinner bridge at the Iron Lantern Wednesday evening.

A three course dinner was enjoyed and later three tables of bridge were in play. Prizes were won by Mrs. P. H. Flynn and Miss Oliver Allen and Miss Averell was presented a guest prize.

MISSIONARY SOCIETY TO HAVE LUNCHEON

The Women's Missionary Society of the Presbyterian Church will have a luncheon meeting at the home of Mrs. Charles Kinsey, Jacoby Road, Friday. Luncheon will be served at 1 p. m. with Mrs. O. A. Spahr in charge. Persons attending are asked to bring their own china and silver.

The program following the luncheon will be in charge of Mrs. Robert H. Kingsbury and Miss Jean B. Elwell. Anyone desiring transportation to the Kinsey home is asked to notify Mrs. O. M. Whittington.

GARDEN PARTY IS SUCCESS WEDNESDAY

Despite threatening weather earlier in the day the garden party sponsored by St. Brigid Church at the Lampert golf course, Dayton Ave., Wednesday evening was a decided success. The party is to be repeated there Thursday evening. Proceeds from the affair are to be added to the fund for the erection of a new church.

"I'm fussy about my hands"

So I always wash dishes with Chipso

COARSE looking HANDS Certainly DON'T help Out in SOCIETY

So I do my DISHES with THE NEW CHIPSO

Those WONDERFUL SUDS Keep my CUTICLE So SMOOTH and SOFT

You OUGHT to SEE How BEAUTIFULLY CHIPSO washes SILKS, too. It's just as GOOD As COSTLY SOAPS To keep COLORS BRIGHT

Why don't you TRY THE NEW CHIPSO I like the GRANULES But CHIPSO comes in INSTANT-SUDSING FLAKES, too.

ENTERTAINS GUESTS AT INFORMAL TEA

Mrs. W. G. Harrington and daughter, Miss Ethel Harrington, Kingston, N. Y., former Xenians, were guests of honor at an informal tea at the home of Mrs. W. Crawford Craig, N. Galloway St., Wednesday afternoon. The guests included eighteen women who were intimate friends of the guests of honor during their residence in Xenia several years ago. An informal social time was enjoyed during the afternoon.

Reorganization of the choir of the First Lutheran Church will take place at a meeting at the home of Miss Mary Maxwell, 111 Stelton Road, Friday evening at 7:30 o'clock. Any one interested in singing with this choir is invited to the meeting. A social hour will be enjoyed later in the evening.

Miss Frances Straley, daughter of Mr. and Mrs. Herman Straley, near Cedarville, has enrolled in the freshman class of Wittenberg College, Springfield.

Mr. Irvin Hyman, son of Mr. and Mrs. Abe Hyman, N. King St., has enrolled in the commercial department of Ohio State University, Columbus, for the coming term.

Regular Sunday School services will be held at the Old Town M. E. Church Sunday at 9:30 a. m. Members are asked to bring their Bibles.

The Rev. Adrian G. Lebold, pastor of the First Lutheran Church, read a paper on "Church Publicity" before a meeting of the Luther Club in Springfield this week. The Rev. Mr. Lebold became a member of this group of Lutheran ministers of Springfield and surrounding counties last September.

Trinity M. E. Church choir will meet for rehearsal at the church Friday evening at 7:30 o'clock.

The condition of Dr. George Shoup, Philadelphia, was reported to be slightly improved according to word received here by relative late Wednesday evening. His heart is stronger and physicians say if he is able to "hold his own" for the next ten days he has a chance of recovery. Dr. Shoup is threatened by an embolism that followed an operation for appendicitis.

Mrs. James Hite (Helen Maxey), Columbus, spent Thursday in this city with friends.

Mrs. and Mrs. Roy Beals have rented the J. B. Bice property at King and Union Sts., and moved into their new home this week. Mr. Beals is employed by the Hoover and Allison Co.

The Women's Home Missionary Society of Trinity M. E. Church will meet at the home of Mrs. Frank Bickett, W. Church St., Friday afternoon at 2:30 o'clock.

Mrs. Fred Kennon is confined to her home on W. Market St., suffering from a severe attack of inflammatory rheumatism.

DEPOSED TEACHER TAUGHT PRIMARY

Mrs. Reva S. Cavender, center of the most recent controversy in the affairs of the Xenia Twp. school district, was formerly a primary teacher at the Greene County Children's Home and not a teacher of the upper grades, she disclosed Thursday.

Following the refusal of the township board of education to re-employ Mrs. Cavender this fall to teach the primary room as she had done for the last five years, Mrs. Thekla Spahr, upper grade teacher for the past five years, was transferred by the board to the primary department.

Because of the fact teachers employed at the county institution are supposed to meet with the approval of the superintendent, and Supt. James B. Soward insisted upon the re-election of Mrs. Cavender, the board recently arranged that the twenty-seven pupils of the upper grades be transported to two other schools in the township.

SCHOOL BUS DRIVERS TO MEET SATURDAY

Reorganization meeting of the Greene County School Bus Driver's Association, of which H. C. Aultman, county school superintendent, is president, has been called for 1:30 o'clock Saturday afternoon at the Court House. About eighty bus drivers are expected to attend.

The drivers, at this meeting, will be given driver's certificates which the law requires must be issued by the county board of education, signed by the president and clerk. Matters relating to general problems confronting school boards and bus drivers in the transportation of school children will also be considered, and the subject of insurance protection for the maximum safety of pupils will also be discussed.

Miss Vera McCabe, 26 Maple St., is spending several days in Columbus with relatives and friends.

Mr. James Wilson III, N. Galloway St., returned home Wednesday evening after spending three weeks in Yucatan, Mexico, on a business trip.

Miss Elizabeth Bickett, W. Church St., has gone to Philadelphia to enter Drexel Institute where she will take a post graduate course in library science.

Mrs. Lucia Garrison, 222 Fayette St., is slowly recovering from a severe attack of illness.

Mr. and Mrs. Floyd Cummings and son, Tommy, Dayton, are spending several days with Mr. and Mrs. T. E. Cummings, W. Second St.

Mrs. and Mrs. Herman Straley and family, near Cedarville, had as their guests at dinner Sunday A. and Mrs. William Bryan and Mr. and Mrs. Chester Bryan and daughter, Ruth, near Jamestown.

Half a Million Dollars Price Set on Lost Love

Suit Filed Against Marlene Dietrich by Rita Von Sternberg, Alleging Alienation of Husband's Affections, Puts Price-Tag on Love

Charging that Marlene Dietrich, famous German film star, has alienated the affections of her husband, Josef Von Sternberg, who has directed Miss Dietrich's pictures, Rita Von Sternberg has filed suit against the star, asking for \$500,000 heart balm. The Von Sternbergs have been divorced about four years and the director has been largely instrumental in putting the German star on the pinnacle of fame she occupies in the film world. Miss Dietrich's husband, Rudolph Sieber, publicly declared that he has the utmost confidence in his wife and that her relations with Von Sternberg are merely those customary between a director and a star. Another suit for \$100,000 has also been filed by Mrs. Von Sternberg, charging that Miss Dietrich libeled her in articles written for Austrian and German newspapers.

LOS ANGELES, Sept. 21.—The romanticist will tell you, with the light of idealism in his eyes, that the one thing in the world on which it is impossible to hang a price-tag is love. If there is a cynic in the audience the statement will call forth a tell-it-to-Ripley expression, a characteristic twist of the lips and a counter statement that love, in common with other commodities, has its value in dollars and cents.

Apparently the cynic is not alone in his belief, as we frequently have cases of indemnity being sought for the loss of the divine passion. A celebrated example, now imminent, is that in which Mrs. Rita Von Sternberg is suing Marlene Dietrich for the sum of \$500,000 for the alleged alienation of the affections of her former husband, Josef Von Sternberg, famous film director.

Miss Dietrich, as millions of movie fans already know, came to the United States from Germany about two years ago and immediately started to climb to fame at a speed that was nothing short of phenomenal, under the direction of Von Sternberg. Success was assured from the moment her first picture appeared, her expressive eyes, that could say all kinds of nice things to her audience, and her shapely limbs contributing largely to her triumph.

Last Spring, as a gesture to her love for America and its reception of her, Miss Dietrich brought her husband, Rudolph Sieber, and her daughter to live in Hollywood. The first hint of trouble brewing for the movie queen came some months ago when rumor circulated to the effect that Mrs. Von Sternberg, divorced wife of Miss Dietrich's director, complained that her ex-husband was taking more than

Lost 20 Lbs. of Fat In Just 4 Weeks

Mrs. Mae West of St. Louis, Mo., writes: I'm only 23 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast—an 85 cent bottle lasts four weeks—you can get Kruschen at any drug store in America. If not joyfully satisfied after the first bottle—money back. Adv.

REVIVE MOVEMENT TO RE-ROUTE DIXIE HIGHWAY THROUGH XENIA

Agitation to have U. S. Route No. 23 known as the Dixie Highway, shifted at Findlay and rerouted through a number of other cities, including Xenia, has been revived, principally at Urbana, it became known Thursday.

The advocated change would take the highway through Kenton, Bellefontaine, Urbana, Springfield and Xenia to Cincinnati. At present the portion of the federal pike under discussion is routed through Lima south through Middletown and Hamilton.

A movement is said to be afoot to have city officials and civic organizations of cities along the proposed new route united for the purpose of obtaining concerted action.

Sponsors of the movement are expected to call the project to the attention of Congressman Charles

Brand, Urbana, representing the Seventh Congressional District, who is a member of the House Roads Committee. Proponents of the plan for rerouting a part of the much-traveled highway point to the advantages of less mileage, smaller cities and less traffic congestion.

"Believe me he gets dirty!"

But Chipso washes are so easy!

Jack's OVERALLS used To be an awful CHORE UNTIL I TRIED THE NEW CHIPSO!

BIBLE THOUGHT FOR TODAY

For the law having a shadow of good things to come and not the very image of the things, can never with those sacrifices which they offered year by year continually make the comers thereunto perfect.—Hebrews, x, 1.

DR. JORDAN

The death of David Starr Jordan strikes from the active roll of American scholarship another of its foremost names. The statement that he had lived "three full lives" was once elucidated by Dr. Jordan: "I have been a naturalist and explorer in one, a teacher and finally president of Stanford University in another and I have worked in the cause of international peace in a third."

Author of many learned works, a man upon whom universities fought for the privilege of conferring their most coveted degrees, adviser and instructor of youth on campuses all over the country, what Dr. Jordan appears to have been proudest of all of was his efforts in the direction of bringing peace to the earth and good will to the nations. Yet deeply as he loved peace, Dr. Jordan refused to go to Europe or a "peace ship" during the World War, a venture he regarded as quixotic; and strongly supported his country's war policies, after it was once embarked in the struggle.

After living "three full lives," was it surprising that Dr. Jordan, as he approached four score years, was wont to say: "I am ready for death when it comes." At the end of a life so full of service to his fellowmen he did not fear to face whatever might lie beyond the grave. Abou ben Adhem's modest prayer may well have been his.

REGARDING MANCHURIA

Japan long coveted Chosen (Korea). She got it in 1895, after she had administered a humiliating defeat to China; and in addition she obtained a lease of Port Arthur and other concessions from her late enemy. With an ostentatious gesture of friendship for China, a European political consortium stepped in and prevailed upon Japan to relinquish these concessions. Czarist Russia demanded, for its part in the consortium, the lease of Port Arthur which Japan had been "induced" to give up. Also it obtained the right to build the Chinese Eastern Railway, a cut-off for its Trans-Siberian Railway, across northern Manchuria; and, a little later, the right to construct a branch line from Harbin to Port Arthur and Dalny, which was named the South Manchurian Railway.

The occupation of Port Arthur by Russia was a threat to Japan's program in Chosen and an obstacle to Japan's penetration of southern Manchuria. Consequently, a decade after Russian intrigue had deprived Japan of Port Arthur, Japanese arms drove Russia out of Manchuria south of Changchun, about midway between Mukden and Harbin. The treaty of Portsmouth gave Japan the South Manchurian Railway between Changchun and Dalny (Dairen) and thus opened all of Manchuria tributary to this section of the railway to Japanese exploitation, as a "sphere of influence." Subsequently she obtained from China other valuable railway and mining concessions.

As long as southern Manchuria was sparsely occupied, all went well with Japan's plans for peaceful conquest; but with the filling up of the country with Chinese, after the turn of the century and more especially after the revolution of 1911 and its train of civil war in China, the friction between the Chinese on one hand and the Japanese and Koreans on the other, was intensified. The recent anti-Chinese riots in Korea were provoked by the repressive attitude displayed by the Manchurian authorities toward Korean immigrants. The failure of Japan to prevent these riots was presumably what led a few weeks ago to the murder of a Japanese army captain and three companions in Manchuria. Shortly after the latter incident, a report that the Japanese army had threatened to take retaliation into its own hands if the Tokyo foreign office did not move faster, was denied in Tokyo; but the clash at Mukden looks very much as if the Japanese army had made good its threat.

RESTORATION OF CONFIDENCE

In Russia the government says that the way to make industry and business run well, is to have the government dictate every detail of the life and industry of the people. So the government tells people where they shall work, what wages they shall have, where they can buy their supplies. Anyone who opposes the policy of the government, may be jailed, sent to Siberia, or shot.

Under that plan, the government is no doubt able to stop people from doing many foolish and wasteful things. But such a plan destroys the personal freedom which our people value more than anything else. When the government makes mistakes, as frequently it does, then the loss is very great.

In America and the rest of the world, business is given individual freedom, subject to reasonable government control. It is based on mutual confidence and faith, that people can generally be trusted, that the system of government and business is sound.

To make this system work well, a general feeling of mutual confidence is necessary. The recent industrial depression is due to the fact that some part of this confidence has been destroyed. People are fearful of imaginary dangers. The main thing to do to get business running normally, is to restore their confidence, and give them faith, so that they will go ahead and act as they usually do.

To give them this confidence, two things are necessary: First, give wage-earners confidence that they are going to hold their jobs.

Second, give business people confidence that a reasonable profit can be earned on capital, that legislation too hostile to business will not be pushed through. If these two elements can be given this confidence, business revival will take place almost immediately here in Ohio and everywhere else.

"Ma" Kennedy may have to possess her soul in patience at times, but she "gets her man" in the end.

"A coward dies a thousand deaths, a brave man dies but one." or something of that sort, Shakespeare, however, seems to have died 13, a very unlucky number, which may account for the Baconian theory.

The disposition of the League of Nations to give Mexico prominence in its councils if that country finally decides to join up, naturally appeals to the national pride; but it ought also to create a feeling of caution.

Bishop Cannon is home with a request that a grand jury investigate his disposal of funds in the last presidential campaign. Is the bishop hoping to get Gerald Nye and his committee before some such body as witnesses?

The parting advice from Gen. Smedley D. Butler to the marines at Quantico was this: "Fight like Hell, but don't cry when you are licked." This couldn't go over a properly censored radio line, but it is good advice nevertheless, particularly the latter half.

MY NEW YORK

By JAMES ASWELL

NEW YORK.—Playwrights and novelists are celebrating the tense melodramas which occur daily and nightly in the great hotels. These yarns, so far, have been largely concerned with the guests. But within the staff of each of these skyscraper havens there are countless homely dramas, many of them full of laughter, just as there are in modest households.

Here is one:

To Mr. Ralph Hitz, manager of the Hotel New Yorker, came a letter not long ago from the managing director of Trans-continental Western Air, Inc. The epistle mentioned the installation of a new express service and went on, in true press-agent style:

"How opportune! For this permits me to send you one of our best Ozard Tom Cats which I am sure you will find efficient in your store room."

"I am quite confident that an interchange of cats will prove mutually beneficial, as the change of environment and subsequent interbreeding ought to produce a cat which will strike fear into the heart of any mouse."

M. Hitz lifted an eyebrow and flicked a speck from his huge garbena. It takes imagination to speak of sending H. Hitz a tom cat. Nevertheless, two days later an immense and markedly unfragrant crate was delivered into the manager's office. Inside paced a beast proportioned like a small tiger and jet black. He leered at his new friends. He hissed.

The entire staff was thrown into a temporary uproar. A conference of executive heads was called, including even the house doctor. Here was a delicate situation. If the feline were retained the outside world might infer that the services of a tom cat were required in the Hotel New Yorker storerooms. If he were returned to the donor the act might be considered ungrateful.

SAVED BY THE MILITIA

At last three major-generals of the bell-hop corps were summoned and commanded to take the animal for a nice, long walk. If they returned without their ward—for example, if he should become lost—they would be given the rank of full generals, and excused from drill for a week. If the cat did not disappear during the stroll, a check on four bars would be removed from the uniforms of the officers, leaving only thirty. Quite possibly they would be demoted to colonels, too.

Opening the box cautiously with a crowbar, the bellboys induced the ebony gentleman to accompany them to the street on a leash. The little party proceeded down Eighth Ave. to 42nd St. and there became lost in the crowd. Later the three uniformed guardians returned to the hotel with an empty leash.

The following day a guest of the hotel walked proudly into the manager's office with the cat under his arm. He had found it in a doorway of 72nd St. Having heard that the hotel cat was lost, he was happy to have performed the service of restoring the pet.

The other day I printed verbatim an announcement from the high-minded and fussy Lunk Park, of Coney Island, setting forth the spiritual, cultural and esthetic value of their "classic physical contest"—and added the intimation that if the press-agent of the place would be so kind as to come out from behind his beard he would be revealed as ballyhoo man for a beauty contest.

He writes: "You would call it a 'Beauty' Show that which it is not. Beauty shows are a stench and a hiss. A classic physical contest is based on proportion according to Greek standards of the old masters Phidias, Praxiteles et al. Sylvester Sullivan."

Whoops! I stand corrected—although, as Immanuel Kant said to Michaelangelo, "It's baloney any way you slice it."

FORCES AND PHYSICAL CONDITIONS CAUSING POLAR FLATTENING OF PLANETS

By Arthur DeV. Carpenter

We are all familiar with the fact that the rotation of a planet upon its axis tends to make it bulge at the equator and become flattened at the poles, and the more rapidly the planet rotates the more oblate (flattened) it becomes. Then, too, the greater the gravity at the center of a planet, the greater is the resistance to the centrifugal force that flattens it. Also the way matter is distributed within a planet greatly affects the amount of its oblateness. If most of its density resides near its center, its rotary tendency tends to give it a greater polar flattening. Jupiter observed through a telescope is very noticeably flattened. Its greater density must be at its center.

The value of farm equipment sold by American manufacturers in 1929 totaled \$568,038,937, of which the equipment for export was valued at \$112,546,389.

The two largest national forests are in Alaska—Tongass, 16,345,143 acres and Chugach, 4,799,470 acres.

The signers and their families of the Declaration of Independence were proscribed as traitors by the British government and rewards of 500 pounds were offered for their apprehension.

The University of Oxford, England, is said to have been founded by King Alfred in 872.

The English word, dollar, comes from the German term, thaler. Shakespeare thus translated it in "Macbeth."

MEAN OLD THING

"My mistress is so curious."

"How is that?"

"Today I looked through the keyhole into her room and she was looking through the keyhole out at me."

SIGNS OF PROGRESS

FORMER SENATOR FRANCE IN RACE AS OPPONENT OF HOOVER RENAMING

By CHARLES F. STEWART

WASHINGTON.—In the 1932 Republican presidential activities of ex-Senator Joseph I. France of Mount Ararat farms, just outside Port Deposit, Maryland, there is more than meets the first glance of the eye.

Dr. France is spending considerable money on his pre-convention campaign, but he has no delusions as to his real prospects. Anyhow, he is not much deluded. Maybe he does think that he stands as much chance of being nominated as the holder of one ticket would stand to win the capital prize in a national lottery. Most folk probably would pronounce even that a delusion.

Nevertheless, the ex-senator does not deceive himself at all badly. For the general public's benefit, he pretends, of course, to regard his candidacy for the G. O. P. nomination seriously, but he makes no such pretense among politicians, with whom he is well acquainted, and to whom he talks actual "turkey."

The fact is that he disapproves of President Hoover as few, if any, other folk disapprove of the Calverton Island setting forth the spiritual, cultural and esthetic value of their "classic physical contest"—and added the intimation that if the press-agent of the place would be so kind as to come out from behind his beard he would be revealed as ballyhoo man for a beauty contest.

He writes: "You would call it a 'Beauty' Show that which it is not. Beauty shows are a stench and a hiss. A classic physical contest is based on proportion according to Greek standards of the old masters Phidias, Praxiteles et al. Sylvester Sullivan."

Whoops! I stand corrected—although, as Immanuel Kant said to Michaelangelo, "It's baloney any way you slice it."

Forces and physical conditions causing polar flattening of planets.

By Arthur DeV. Carpenter

We are all familiar with the fact that the rotation of a planet upon its axis tends to make it bulge at the equator and become flattened at the poles, and the more rapidly the planet rotates the more oblate (flattened) it becomes. Then, too, the greater the gravity at the center of a planet, the greater is the resistance to the centrifugal force that flattens it. Also the way matter is distributed within a planet greatly affects the amount of its oblateness. If most of its density resides near its center, its rotary tendency tends to give it a greater polar flattening. Jupiter observed through a telescope is very noticeably flattened. Its greater density must be at its center.

The value of farm equipment sold by American manufacturers in 1929 totaled \$568,038,937, of which the equipment for export was valued at \$112,546,389.

The two largest national forests are in Alaska—Tongass, 16,345,143 acres and Chugach, 4,799,470 acres.

The signers and their families of the Declaration of Independence were proscribed as traitors by the British government and rewards of 500 pounds were offered for their apprehension.

The University of Oxford, England, is said to have been founded by King Alfred in 872.

The English word, dollar, comes from the German term, thaler. Shakespeare thus translated it in "Macbeth."

MEAN OLD THING

"My mistress is so curious."

"How is that?"

"Today I looked through the keyhole into her room and she was looking through the keyhole out at me."

he can. Evidently he considers the show worth the price of admission.

The ex-senator's size-up of the situation is not uninteresting.

His idea is to get enough states to cast, each, its initial vote for some "favorite son" of its own to prevent Mr. Hoover from receiving a majority on that ballot, at the next G. O. P. convention.

And his theory is that, should this occur, anti-Hoover sentiment would be so crystallized and heartened as to keep the president from securing a majority on any subsequent ballot—the "favorite sons" instead, gradually eliminating one another by a succession of combinations among themselves, and the last survivor finally copping the nomination.

It is true enough that Mr. Hoover has disappointed the progressive Republicans. Let him be renominated, as it is almost certain he will be, and most of them undoubtedly will support him again, most of them did in 1928.

For all that, they wish they could believe he will not be renominated. They have suggested plenty of "favorite sons."

Senator Brookhart repeatedly has suggested Senator Norris of Nebraska—without any encouragement from Senator Norris, however. Senator Brookhart and various others have strongly suggested Senator Borah of Idaho—it is hard to tell with how much encouragement from Senator Borah. Young Senator Bob LaFollette of Wisconsin has been suggested and so has his brother, young Gov. Phil LaFollette. Governor Pinchot of Pennsylvania has been suggested to the point of a veritable boom, for which he gives no indication of being displeased.

Some of the progressive states, however, have not put forward "favorite sons" of their own and these are the ones ex-Senator France is devoting himself to.

He is suggesting his own name to them rather than have them left

with no candidate other than Mr. Hoover to vote for.

He is touring progressive territory, now, on this mission.

The doctor never has been notably a progressive, but, at that, he argues that he is more so than Mr. Hoover, and here and there a progressive is to be found who seems to agree with him.

Yet it is not alone to the progressives that Dr. France is appealing. It was no secret at Kansas City that a formidable contingent of very regular Republicans ardently objected to the Californian as their party's standard bearer and he by no means has won all of them over since then.

This group divides at present into two sub-groups. Of these two groups, one takes the position that Mr. Hoover is bound to be renominated in spite of everything. The group's members say that they believe he will be beaten at the polls, indeed, but they express the opinion that it is as good a time as ever there will be for the G. O. P. to lose, inasmuch as it is their judgment that the depression will last at least four years more, and in 1936, they predict, the country will be ready to return to the Republican fold and stay there indefinitely.

On the opposite hand, the rival group's spokesmen forecast a revival of prosperity within a year or two, in which case, they point out, the Democrats, if in office, will get the credit for it, and heaven knows when the Republicans will get back.

Group No. 2 is the one ex-Senator France is endeavoring to enlist under his banner, along with the progressives.

The doctor's theory is all right, but how many recruits will he get?

with no candidate other than Mr. Hoover to vote for.

He is touring progressive territory, now, on this mission.

Child Needs More Food

By LOGAN CLENDENIN, M. D.

The balance of the food elements for a child of 8 or 9 years and up is the same as for an adult. The younger child may need a little more protein proportionately, but that is the only possible difference. But the child needs a great deal more of all the food elements than the adult, on account of its much greater activity. Gehardt, in studying the boys of St. Paul's school, found they needed 5,000 to 6,000 calories a day. This is nearly twice as much as an adult needs.

A sample day's diet for a child of 12 years old is given by Palmer as follows:

Breakfast	
Cooked Apples (four tablespoons)	
Bacon (two slices)	
Cornmeal Cereal (three tablespoons)	
Milk (one glass)	
Cream (four tablespoons)	
Sugar (two teaspoons)	
Toast (two slices)	
Butter (two pats)	
Lunch	
Cream of Vegetable Soup (one cup)	
Egg Salad, Mayonnaise (one tablespoon)	

Buttered Noodles (three tablespoons)	
Sugar (two teaspoons)	
Sliced Peaches	
Bread (two slices)	
Butter (two pats)	
Milk (one glass)	
Dinner	
Roast Beef (one slice)	
Browned Potatoes (one medium)	
Jelly (one tablespoon)	
Buttered Carrots (three tablespoons)	
Bread (one slice) Butter (one pat)	
One Cookie Baked Custard	
Milk (one glass)	

Editor's Note: Six pamphlets by Dr. Clendenin can now be obtained by sending 10 cents in coin, for each, and a self-addressed, stamped envelope, to Dr. Logan Clendenin, in care of this paper or Central Press Association, 1435 East Twelfth Street, Cleveland, O. The pamphlets are: "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene," and "The Care of the Hair and Skin."

Counsels Fair Play For Popularity

By MRS. VIRGINIA LEE

"DEAR MISS LEE: Just what must a girl do to have personality with the opposite sex, and what can she do to be popular?"

"I have often heard if a girl wants to win a certain boy she can get him by acting indifferent, is this right?"

"Some say one thing and some another, Dina Lee. A girl who is popular rolled her eyes and said: 'Give them a line and forget them.' Meaning the boys, of course."

Others attain the same ends by treating men as human beings—listening to their tales of woe, hopes and ambitions. I think this latter is the best to attain all-around lasting popularity.

Cultivate an amiable disposition, a sense of humor, wide interests so that you can talk easily, and be fair in your dealings. You may not always have a gang of boys vying for your favors, but I bet you'll have some mighty good friends of both sexes.

TRUE FRIEND: Let the girl friend find out the worthlessness of these other people for herself. You will never get any credit for trying to show her her faults, and will get yourself disliked for butting into her affairs.

"DEAR VIRGINIA LEE: I care very much for a boy with whom I used to go steady. He is now going with another girl. What can I do to win him back again? JUDY."

Not an honest thing, Judy. Why didn't you keep him while you had him?

"MISS VIRGINIA LEE: I am married and have a baby five months old. I was in the habit of drinking and staying out late and sometimes talking to girls I used to know, but never going with them."

"But people who do not like me poisoned my wife against me. I have done everything since my baby was born and am willing to do everything for them but I cannot get the chance. If she would understand like some of the wives that write to your column she would come back, but all the advice she gets is, don't go back and ruin your life."

"Why do women, when they have quarreled, go to people who only make it harder for man and wife to get along? JUST A SHIP WITHOUT A PILOT."

Have you thought about how your wife felt staying home alone

while you drank and went out nights and flirted with other girls? Pretty lonely and humiliated and discouraged, I imagine. Better think hard about it now so as to realize how hard it is for her to forgive and forget.

It is too bad that outsiders have to interfere between man and wife, but maybe these people to whom your wife listens thought that she was foolish to stay as long as she did with a man who treated her as you did. Wives put up with a great deal from their men very often, but when they are through they are through. They feel they have had enough and that they never want to try life with him again. This may be the case with your wife.

The only thing to do is to live so that everyone can see you are really changed and

Xenia - Washington To Revive Grid Rivalry

ANCIENT FOOTBALL ENEMIES TO INITIATE NIGHT GAME IN XENIA

Game Starts At 8 p. m. Blue Lions Have Edge In Victories Over Twenty Years; Xenia Lost Last Year By 37-0 Score

A football rivalry which had its inception more than a score of years ago and has been continued with only three interruptions since 1911 will be renewed at Cox Athletic Field Friday night when Xenia Central and Washington C. H. grid teams mingle under the newly installed floodlights. The kickoff will be at 8 p. m.

The Blue Lions have already played—and lost—their season's opener to Columbus Aquinas, but the nocturnal contest will serve as the initial 1931 trial spin for the Buccaneer football machine.

The Xenia grid machine is in reality the 1930 model, with a few original parts missing perhaps, but rejuvenated by new replacements.

Under the stimulus of three weeks of intensive drills, the Buccaneer squad has emerged almost unscathed. The gridgers, with the exception of Bill Wagner, counted upon for a regular halfback berth, have managed to somehow evade serious injuries despite spirited scrimmage sessions.

Wagner, who is bothered by what in athletic parlance is commonly known as a "charley horse," in this case a leg muscle ailment, in all probability will not start the game Friday night. The other Buccaneers, aside from one or two who have minor physical grievances, are in tip-top shape for the lifeline contest.

Constant practice since the first of the month has convinced Coach Walter C. "Pinky" Wilson that Central should be stronger this fall than last, but he is anxious to see what his boys can accomplish under actual fire.

The Buccaneer eleven will probably again be stronger defensively than offensively this season, although the backfield is more or less composed of veteran candidates. Dick Creamer and Paul Baldwin are vying a merry scrap for the right to call signals from the quarterback post vacated by Birch Bell. Creamer, 135-pound junior with two years of experience, may have the inside track, but Baldwin, a senior weighing ten pounds less with just as much experience, is giving him a hot argument. Clinton "Pinch" Adair, 130-pound sophomore, is also making a three-cornered fight of it.

Howard Thompson, veteran of three grid campaigns, is a certainty for one halfback assignment. He will also bear the burden of punting. The fact Wagner, senior and semi-regular last season, will probably not be in condition to start the game, leaves the other halfback job a "wide open" affair with numerous candidates vying for the position. Tom Huston, 135-pound junior, Eugene Confer, another junior, Ed Luttrell sophomore prospect, and Charlie Montgomery, a junior who weighs 100 pounds and is the lightest member of the squad, are the most prominent aspirants. Freddie Dalton, Junior, now weighing 155 pounds, will be at fullback and will constitute the principal Buccaneer offensive threat unless all signs fail. Freddie

RAY HENLEY SCORES UPSET IN VICTORY IN LEXINGTON RACE

Scoring an upset by defeating the favorite, Ray Henley, the speedy brown gelding owned by George Hagler, near Xenia, was a handy victor in the 2:15 pace valued at \$1,000, the event ushering in the afternoon's card on the Grand Circuit harness racing program at Lexington, Ky. Wednesday.

Piloted by Trainer Joe Hagler, son of the owner, the four-year-old star of the Ohio half-mile tracks won the race in straight heats, over the favorite, Arthur Mower, driven by Stokes. Eight pacers comprised the field and the Greene County bred and owned wiggler, of his best behavior, flashed under the wire in fast time each heat. Ray Henley paced the first mile in 2:02½, the second in 2:03¼ and the third in 2:04½.

The local horse will go again next Monday, according to report, having been entered in a stake event in which the competition will be keener than ever.

Bowling

Season's play in the Business Men's Bowling League were held on the Recreation alleys Wednesday night, and the three competing teams divided the evening's spoils. Honors for the initial match play were split, each team winning a game. R. Smith, with a series of 552, recorded the highest individual three-game total. Box scores:

TWENTY-SIX OHIO GRID TEAMS BEGIN CAMPAIGNS THIS WEEK

COLUMBUS, O., Sept. 24.—Twenty-six Ohio colleges stood on the threshold of the 1931 football season today.

Three games tomorrow, two of which will be played at night, will start the Ohio collegiate season. The big rush will commence the following day when most of Ohio's other teams will engage in their season's openers.

Sam Williamson's Ohio State University squad will remain at practice, awaiting its first game a week later with the University of Cincinnati.

Muskingum will meet Wilmington, Georgetown will battle Wittenberg at Springfield, and Hanover will perform against the University of Dayton in Friday's games. The Dayton and New Concord games will be played at night.

Saturday's games will give fans their first view of the majority of Ohio's teams, although the customary plan of picking set-ups for the first game of the year is still in vogue, and now as in the past it is still difficult to judge any team from its opening game performance.

The Heidelberg Student Princes, Ohio conference sensations last year, will take on the Hope, Mich. team, which is doubtful of quality to Ohio fans, at Tiffin in one of Saturday's big games.

NEED BOOKKEEPER TO FIGURE NORTHWESTERN U'S PROSPECTS

(This is the second of a series by Leo Fischer from the training camps of the big ten colleges. Follow him around the big ten for the real "inside" dope on the situation. Illinois will be next—Ed.)

By LEO FISCHER
International News Service Sports Writer

EVANSTON, Ill., Sept. 24.—How do you rate a bookkeeper? If you're an expert along these lines, perhaps you are better qualified to figure Northwestern's chances for repeating as big ten champion than just a mere football writer.

Analyzing the situation at Evanston, where Coach Dick Hanley is trying to weld together another powerful machine, the entire matter resolves itself into a problem of book-keeping—trying to balance debits and credits.

Here are the debits on the Wildcat ledger:

Hank Bruder, one of the best defensive backs in the big ten. Lee Hanley, all-conference quarterback. Frank Baker, all-American end. Wade Woodworth, all-American guard.

Hob Clark, second best center in the big ten. Bob Gonya, leading conference tackle. Larry Oliphant, regular right end. Seven other valuable members of the title squad.

Credits: "Reb" Russell, all-American fullback. Pug Rentner, best forward passer in the big ten. Dal Marvill and Jack Riley, all-conference tackles.

Jimmie Evans, brilliant guard. Assorted substitutes and reserves. Unusually good sophomore talent. There are the statistics. Now figure the answer. If Coach Hanley can make his credits equal the debits, with a bit left over, then they might as well start dusting the trophy cases at Patten Gymnasium to make room for another championship cup.

To be frank, Dick himself doesn't know whether he's going to

N. Y. STOCK MARKET

NEW YORK, Sept. 24.—Today was profit-taking day in the stock market for the fortunate traders and speculators who bought stocks at the low prices of Monday and Tuesday. Prices dropped 1 to 5 points in a long list of the shares which soared so spectacularly yesterday, the sharpest declines being in a few of the rails. Railroad bonds were able to continue their advance on a smaller scale, and cotton rose a dollar a bale.

PUPILS URGED TO SEE FAMED MOVIE

H. C. Aultman, county school superintendent, announces that pupils in the county schools need have no fear they will be counted absent from school should they come to Xenia in the afternoon and see the educational motion picture, "Abraham Lincoln," being shown at the Orpheum Theater.

County school children were invited to the various matinee showings of the picture but have generally been unable to accept the offer due to lack of theater space to accommodate more than a limited number at one time.

Pupils, according to the superintendent, may attend individually or in groups, accompanied by parents or unaccompanied, without being counted absent from school.

GANDHI AND HIS VIEWS PUZZLE BRITISH FOLK BISHOP REPORTS

By Central Press
LONDON, Sept. 24.—To the ordinary Englishman, Mahandas Karamchand Gandhi is an enigma, says the Rt. Rev. Henry Whitehead, who, as Bishop of Madras, has had a long personal acquaintance with the Indian leader.

Enigma is correct. This mighty power at the Indian round table conference, with his toothless smile, his goats' milk, his silk loin cloth (changed to white trousers because of London's climate) at first amused rather than awed the multitudes of Britain's capital.

But now Gandhi's political philosophy is beginning to be viewed, both sympathetically and unsympathetically, as something world-inclusive. And thus it is drawing heated comment.

"Gandhi's mind seems often to move in a different plane from ours," says the Rt. Rev. Mr. Whitehead, in The Evening Standard. "A line of reasoning that is conclusive to us seems to make no impression on him. And his indifference or blindness to what appear to us obvious facts, his strange capacity for holding and expressing contradictory opinions fill us with amazement."

Would Restore Outcasts
"He has, for example, constantly asserted during the last fifteen years that the people of India cannot be fit for swaraj (self-government) so long as the untouchability of the sixty million outcasts remains. He has described this stigma of untouchability as a 'hydra-headed monster,' a 'canker eating into the vitals of society,' a 'denial of the rights of man,' a 'sin against religion and humanity!'"

"The conclusion seems to be obvious, Swaraj must wait until untouchability is removed.... But that is not the conclusion drawn by Mr. Gandhi. Quite the opposite. Almost immediately after statements of this kind he demands peremptorily that the British gov-

ernment must give self-government without delay and denounces it as insincere because it refuses to do so.

"But Mr. Gandhi evidently feels there is nothing at all incongruous or uncomfortable in a position of this kind. Mr. C. F. Andrews, who knows him intimately and is one of his closest personal friends, writes: 'To Mr. Gandhi any swerving from the truth, even in casual utterance, is intolerable.'"

"To understand Gandhi's attitude of mind, we must study the intellectual background, the philosophy, so different from our own, out of which it springs."

"Hindu thought in the past has had two characteristics, which are not in themselves peculiar to India, but which have been more strongly developed there than in any other civilized country in the ancient world."

"The first is, what has been well called the major vice of the intellect, excessive abstraction. Hindu thinkers above all others have revelled in the notion that the wider the abstraction the nearer the truth, so that the idea of ultimate reality, formed by the dominant school of Hindu philosophy, is a being from which every quality conceivable to a finite mind has been abstracted and about which we cannot make any true statement whatever."

World of Matter Called Illusion
"And the second is that notion that the world of matter and finite existence generally is what is called Maya, or illusion. Some Hindu philosophers describe it in metaphorical language as the sport or play of Ultimate Reality. But however it is described, it has no purpose and it is not, in the full sense of the word, real. To this world of illusion Truth, as we conceive it, is obviously irrelevant."

"The effect of these two fundamental ideas, working on higher thought of Hinduism for many cen-

turies, has been to create an attitude of mind towards truth very different from that which has been developed in the West under the threefold influence of Greek thought, Christianity and modern science. The difference is revealed at once by the simple fact that in the ancient literature of India there has been no science of history worthy of mention."

A Britisher's View
All this, of course, is a British point of view. To many who have been near him and to millions who have heard him over the radio, Gandhi seems a man passionately devoted to the happiness of mankind.

"The world," says Gandhi, "is sick unto death of blood spilling. The world is seeking a way out, and I flatter myself with the belief that perhaps it may be the privilege of the ancient land of India to show the way out to the hungering world."

In his acceptance of great per-

sonal discomforts to emphasize the poverty and subjugation of India, Gandhi has drawn the world's attention in a spectacular manner to a political program of freedom and peace that may extend—as he intimates—far beyond the boundaries of India.

EAST END NEWS
MRS. JAMES HARRIS
Correspondent
Tel. 91-R

Much interest is being manifested by the participants in "The Millionaire Wedding" to take place at First A. M. E. Church Friday night, under the tutelage of Mrs. S. A. Amos.

The bride, Miss Geneva Harding and the groom, Mr. Kenneth Greene, are to be congratulated as guests will be in attendance from Chicago, Ill., Baltimore, Md., and other large cities. Mr. Reverdy

Ransom, grandson of Bishop R. C. Ransom will be one of the party. Those desiring to attend must come early to avoid the rush. A musical program will preface the wedding.

The pageant given at the First A. M. E. Church Tuesday night met the approval of all present. Miss Una Mae Carlisle and Mrs. James Scott added much to the affair by special selections. Wednesday night, Dr. H. A. Sumers of Payne Theological Seminary gave an address on "Emancipation Day," emphasizing the fact that it meant opportunity to the Negro race. He was followed by a short talk by Rev. Lewis of St. John's A. M. E. Church. Rev. Perdue of Zion Baptist Church will speak tonight.

Mr. Alfred Powell of Columbus, O., spent a few hours Tuesday with his sister, Mrs. Ina E. Hinton, E. Main St.

Mr. and Mrs. Fred Hall and Mrs. Oille Greene of Paris, Ky., have returned to their home after spend-

ing some time with their brother-in-law and sister, Mr. and Mrs. Oscar Jones, E. Church St.

Mr. J. D. Stewart of Toledo was the guest over the week end of relatives. His wife, Mrs. Marie Stewart, accompanied him home.

Mrs. B. J. Simpkins, E. Second St., has returned from the bedside of her daughter, Mrs. Reber Cann, of Cincinnati. Mrs. Cann, who has been very ill, is somewhat improved.

The Rev. F. M. Liggins, E. Market St., who has been doing evangelistic work in Muncie, Ind and other points for some time returned home this week.

Mrs. Bertha Boothe, E. Market St., was the guest Tuesday of her uncle and aunt, Mr. and Mrs. Chas. Lockett, Springfield.

All persons taking part in the fashion show, for the Chautauqua, at Zion Baptist Church, please be at the church Friday night at 8 o'clock for rehearsal.

Teacher Suing Society Matron for That Remuneration Says She Acted as "Moral Pilot" for \$200,000,000 Heir

HUNTINGTON HARTFORD

MRS. HENRIETTA HARTFORD

NEWPORT, R. I., Sept. 15.—In these days of depression, wage cuts and apple sellers, unique methods of earning one's daily coffee and cake are no novelty, but the job of guardian angel to a juvenile Croesus tops the lot by a big margin.

Newport, the playground of society, is all agog over the suit recently filed by Mildred King against Mrs. Henrietta Hartford, asking for \$100,000 back pay for having steered the action and heir of the Hartfords, Huntington, 19, away from the primrose path and along a road of moral rectitude.

Miss King, who is, or was, of the Boston Conservatory of Music, alleges that she was hired by Mrs. Hartford at a time when that lady was a prey to the gravest anxiety occasioned by the flitting of her son in too close proximity to the flaming lure of a "Broadway siren." Her duties, according to Miss King, were to consist of gently, but firmly putting the curb on young Huntington, leading him away from the Broadway forty-niners and inducing him to associate with young people in his own social stratum and financial position.

This last was a more difficult task than it sounds, for, as the young man is heir to about \$200,000,000, there aren't a great many young people with whom he could start off at par.

Anyway, Miss King states, she tackled the job and having conquered the dragon, or rather the Broadway vamp who was magnetizing her charge, earned the gratitude of Mrs. Hartford, who, she says, promised her rewards beside which the \$100,000 for which she is suing is a mere mosquito bite. But the battle for the soul of Huntington didn't end with the defeat of the siren. Miss King declares that she had all her work cut out to keep the young Croesus from gadding about with the daughters of butchers, bakers and candle stick makers in exclusive Newport.

At last, however, the forces of virtue triumphed, and by getting Huntington interested in a "nice girl" in his own set Miss King claims to have scored her \$100,000 victory.

The identity of the "nice girl" is, of course, open to speculation, but the gossip would have us believe that the title might apply to Doris Duke, heiress to as many millions as Huntington, who is the Hartfords' next door neighbor at Newport.

Mrs. Hartford's side of the story is a direct contradiction of Miss King's claim. The wealthy widow denies the Broadway siren menace ever existed and repudiates any knowledge of ever having hired a moral pilot for her son.

Meanwhile, Newport has something new to chuckle over and, though it cannot recall Miss King, remembers that only recently Mrs. Hartford and her offspring returned from Honolulu, where Huntington had been taken to avoid a budding romance with a grocer's daughter.

Huntington is a sophomore at

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and mink and the world looks "punk," don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your downcast feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul, and often breaks out in pimples. Your head aches and you feel down and out. Your whole system is poisoned.

Take these good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to taking the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Beware of substitutes. 25c at all stores. © 1931 C. M. Co.

AUTOIST HURT WHEN ROADSTER UPSETS

Glenn Jones, son of Mr. and Mrs. Thomas Jones, Paintersville, received painful cuts on the face and about the mouth and had several front teeth knocked out when the roadster he was driving upset on the Cedarville-Jamestown Pike Wednesday evening about 10 o'clock. Miss Mabel Soddors, daughter of Mr. and Mrs. Otis Soddors, Jamestown, an occupant in the car, escaped with minor bruises.

The accident occurred when Jones, driving toward Cedarville, failed to negotiate a turn in the road. The machine ran off the road and upset in a field. Passing autoists brought them to the office of Dr. R. L. Haines, Jamestown, where their injuries were treated. The machine was badly damaged.

MT. TABOR

Mr. and Mrs. David Linkhart and daughter, Arthella of Lumberton spent Sunday with Mr. and Mrs. Elmer Wolary and family.

Pangborn and Herndon Victims of Jap Jingoism

Innocent Landing With Camera, Without Permit,
Gave Super-Trained Secret Service, Bored by
Monotony of Peace, Longed-for Opportunity

HUGH
HERNDON, JR. &
CLYDE
PANGBORN.

W. W. FARLEY

MRS. HUGH HERNDON, JR.

When Clyde Pangborn and Hugh Herndon, Jr., American fliers, were first arrested on landing in Japan without a permit, no uneasiness was felt for them. But when the "Jingoes," who are rabidly anti-American, stressed the fact that the fliers flew over fortified areas and used a camera while so doing, the Japanese Secret Service started to build a mighty mountain out of a mole hill. The fliers were charged with making photographs in a prohibited area, as well as with violation of the country's aviation laws. They were each fined \$1,025, and it is doubtful if they will be allowed to fly their plane, in which they had hoped to make a non-stop flight from Tokyo to Seattle, out of Japan. The case reveals in startling clarity how very shallow is the doctrine of professed good will that is popularly supposed to be abroad in the world today. Good will is powerful medicine, but it cannot combat suspicion.

TOKIO, Japan, Sept. 24.—The arrest and subtle persecution of the American 'round-the-world fliers, Clyde Pangborn and Hugh Herndon, Jr., by Japanese authorities on suspicion of espionage is a perfect example of the little boy who was presented with an air gun but had nothing to shoot at.

Japan has an air gun in its very efficient secret service, but since the conclusion of the World War targets have been very scarce. Thus we can imagine with what glee the faux pas of Pangborn and Herndon was welcomed by the yellow empire.

The Land of the Lotus is very proud of its espionage system. Trained in the methods of Germany's famed Wilhelmstrasse, administered and nurtured by the two most reactionary divisions of the Imperial government, the Home Office and War Ministry, it has experienced only one drawback, lack of objectives worthy of its undoubted efficiency.

In these days when the dove of peace is fluttering its wings all over the world, there isn't much work for the spy-hunting fraternity; so when the American fliers not only landed in Japan without a permit but were also found to be in possession of a camera, the all-seeing eyes and the all-hearing ears of the "silent government" immediately sprang to attention.

At first, the arrest of the fliers caused no uneasiness as it was thought that in this era of good will flights such a minor point as that of landing without a permit would easily be ironed out. But when the "Jingoes," who are violently anti-American, bared their teeth and started the hurricane in a teacup, things didn't look quite so harmless as observers at first supposed.

From a mere technical breach of the laws of the country, the action of the American aviators assumed the proportions of a foul plot upon the liberty of Japan, under the subtle innuendoes of the jingo press.

Instead of being allowed to make their apologies and go their way, Herndon and Pangborn were placed under the strictest surveillance. The fact that Herndon is an ex-U. S. Army officer, it was pointed out, made his offense of flying over fortified areas all the more reprehensible—especially as he had taken various pictures of the flight.

The pair was indicted on charges of illegally taking photographs of areas taboo to the foreigner, and the case was sent to the District Court for trial. The fine for the offense was \$1,025 for each of the fliers, but that's not the worst of their punishment. If the Court decides that the aviators willfully violated Japan's aviation laws they will be prohibited from flying over Japanese territory again.

This order, if enforced, means

that Herndon and Pangborn will be prevented from making their proposed non-stop flight from Tokyo to Seattle, for which they abandoned their 'round the world' attempt at Khabarovsk, Siberia. Not only that, they will have to crate their plane and ship it out of Japan, seeing they can't fly it out.

Meanwhile, in the United States, W. W. Farley, former New York State Democratic Chairman, sought the aid of the United States De-

partment of State on behalf of Herndon, who is his son-in-law. Herndon married Farley's daughter secretly just before he took off on the world flight. To sum up, it looks as though

the popular vogue of "good will" flights has been given its quietus by the action of Japan in this case. Good will is powerful medicine, but it cannot combat suspicion.

Better Homes the Gift of Electricity and Gas

If convenience and comfort can be accepted as virtues of home life, electricity and gas must be recognized as great factors in making your home better.

There is no inconvenience, no discomfort in the modern home that will not respond to the services of either gas or electricity. Magic services, these... heating, lighting, powering, time and labor-saving devices, providing entertainment, comforting the sick, protecting health. Gas and electricity do them all.

Better homes... the gift of electricity and gas. Use to full advantage the endless services of these modern servants.

LEGAL NOTICE

Notice is hereby given in ac-
cordance with Section 2606 General
Code of Ohio, that the tax returns
for the current year have been re-
ceived and the valuations computed
and are open for public inspection
in the office of the County Auditor.
Complaints against any valuation
or assessment, except the valuation
fixed and assessments made by the
tax commission, may be filed with
the County Auditor on or before
the time limited for payment of
taxes for the first half of the
current year.

The first hearing by the County
Board of Revision on complaints
filed will be held at nine o'clock,
December 1, 1931, in Room 3 of the
Court House, Xenia, Ohio. Additional
hearings will be held from time to
time by the County Board of Re-
vision until disposition has been
made of all complaints filed.

J. J. Curlett,
Auditor of Greene County,
919, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30.

Probes Alien Ring

She drew zigzag designs in the
dry sand, sometimes using her fin-
gers, sometimes her bare toes.

Could she ever win the man she
wanted—other girls had. It seemed
that was all she had to look for-
ward to—winning Allyn.

She was letting her thoughts air
out. Her brain seemed to be relax-
ing. She rested her head on her
arm where it folded at the elbow.

For nearly an hour she had lain
prone in the searing sun. She had
tried to think what would be best
for her to do, but she was no near-
er a conclusion.

If it were possible for her to re-
turn to New York without any sort
of triumph on Allyn's part, or her
own, she would not be a bit hap-
pier.

She always would think of that

moment when he held her so close
... she could feel his heart beat-
ing ...

Always she would be trying to
think out a way to make him care
... or want to care.

Yet, she knew that as things
were it was hopeless, his caring
as every girl hopes the man she
loves will care ...

"Please hold your head up a lit-
tle," a pleasant masculine voice
said.

Startled, Natalie turned nervous-
ly.

Curiosity and fear mingled in
her feelings as she looked down
the dune behind her, then to the
side.

She was so frightened that it did
not occur to her to pretend non-
chalance, or what is more effective
in such a situation, naivete.

She saw a man sitting in front
of an easel ... thirtyish ... brown
eyes and dark hair, wind blown ...
mouth cut in clean curves ...

white teeth, gleaming in his
bronzed face.

He wore a dark blue bathing
suit and white duck trousers.

"You make a good model," the
sunbrowned man said, his white
teeth showing prominently as he
smiled.

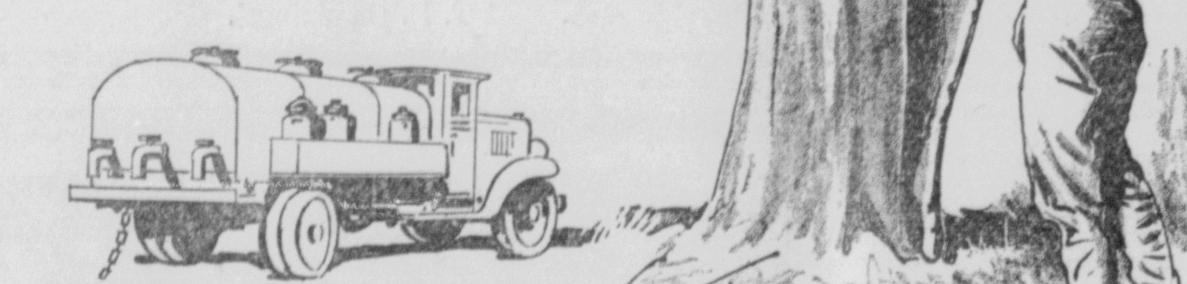

"I had no idea anyone—"
"I know you didn't—but I've been
here since very early, even before
you came along," he answered.
There was certainly nothing vil-
laneous in this man's appearance,
nothing very remarkable, either.

He was smiling up at her with
complete friendliness.

CHAPTER 45

NATALIE reluctantly pulled her-
self up from the velvet-smooth
grass. The sun was getting up quite
high now. The household would be
stirring. The little maid Allyn had
assigned to her no doubt would be
tiptoeing into her bedroom to draw
the curtains.

She felt a little pleased at the
thought of Marie's surprise to find
her out so early.

Natalie was one of those persons
who can enjoy fruit, toast, eggs
and coffee early in the morning.
And the swim she had just had
did not lessen that early morning
appetite. Not even the torrid
thoughts of Allyn.

Perhaps one was supposed not
to get hungry when she was not
getting on with her love. But Na-
talie was not like that. Besides, she
had gone to bed without dinner ...

But it was so pleasant in the
sunshine with the soft breeze.
Should she return to the house
she would have to take off the
swim bathing suit ... and perhaps
Allyn would have a car and chauff-
eur waiting to take her back to
Nita, and New York!

"If I go—! should, at least, like
to know I went of my own accord,"
she definitely decided. "But I
can't ... I have no money for
train fare!"

There were still too many things
to plan for her to return to the
house, even though she could enjoy
breakfast.

She decided she would walk a-
bout the dunes, and the long wind-
ing beach of yellow sand, which
extended beyond the grassy estate
of the Brady family.

She would climb the dunes and
let the wind blow her hair dry.
Perhaps she would wave at some
boat far out in the bay ... who
was that woman of long ago who
waved at passing ships? It did not
matter ... nothing mattered ...

Everything seemed mixed up ...
the real and the unreal.

Perhaps later in the day she
would have a talk with Allyn ...
Sunshine like this was made for
those who were happy. And that
fragrant breeze. But when one was
miserable the joyous sunshine and
wind only emphasized the hurt.

Natalie had lounged at the top of
a dune, lifting the ribbons of
her hair to the breeze until it was
dry and golden and blew about
her head like the golden petals of a
large chrysanthemum.

She drew zigzag designs in the
dry sand, sometimes using her fin-
gers, sometimes her bare toes.

Could she ever win the man she
wanted—other girls had. It seemed
that was all she had to look for-
ward to—winning Allyn.

She was letting her thoughts air
out. Her brain seemed to be relax-
ing. She rested her head on her
arm where it folded at the elbow.

For nearly an hour she had lain
prone in the searing sun. She had
tried to think what would be best
for her to do, but she was no near-
er a conclusion.

If it were possible for her to re-
turn to New York without any sort
of triumph on Allyn's part, or her
own, she would not be a bit hap-
pier.

She always would think of that

moment when he held her so close
... she could feel his heart beat-
ing ...

The Theater

Principals for the new talkie version of "The Dove," which was a Norma Talmadge vehicle in the silent days, have all been selected with the assignment of Norman Foster to play the role of Johnny Powell, an American gambler. Herbert Brenon, director, expects to start production next Monday by which time the Mexican government will have passed on the script and Dolores Del Rio will have returned from Del Monte, where she has been vacationing. Cedric Gibbons, her husband, says her health is now completely restored and she is anxious to get back on the screen.

The Foster role was played by Gilbert Roland in the Norma Talmadge interpretation of the Willard Mack play.

Edmund Lowe, withdrawn from "Cheating" and "Disorderly Conduct" because of an ultimatum issued by his physician, will be out of pictures for at least two months, it is said.

Eddie appeared in seven pictures during the last year and his physician says that while his condition is not serious, he must enjoy a good rest. Probably by the time he is able to work again he will be out of a job since his Fox contract expires in October.

Spencer Tracy has been given the Lowe role in "Disorderly Conduct" and Alan Dinehart has his part in "Cheating." In the former Tracy will have the difficult task of playing "Sergeant Quirt," the screen character made famous by Lowe, but this time in a police uniform. Dinehart will be seen as the husband in a triangle drama in "Cheating." Linda Watkins and Greta Nissen are the other principals.

DOLORES DEL RIO

Edwina Booth, the "Trader Horn" girl, is through at Metro-Goldwyn-Mayer. As far as this studio was concerned her career began and ended with the one role. And while her protracted illness with tropical fever prevented screen work for some time, it

Twenty Years '11- Ago -'31

About 200 Xenia women showed enough interest in the plan to form a Y. W. C. A. here to attend a meeting in the First U. P. Church.

Another local bowling team has been organized and will be known as the "Southpaws," all the members being left handed. Mr. Ernest Collins, near Xenia, left for Seattle, Wash., where he has obtained a position.

Ralph Wolford, Cedarville, sustained an eye injury while assisting in repairing some machinery for the paper mill.

Three-in-One 'Depression Dress'

For Economy in Milady's Wardrobe

Model Designed by Annette Simpson, American Fashion Creator Who Operates in Paris, May be Altered in a Moment for Morning, Afternoon or Evening.

FOR MORNING FOR AFTERNOON FOR EVENING

That there are more ways than one for making your income fit your wardrobe, was recently demonstrated by Annette Simpson, the only American fashion creator working in Paris. Mrs. Simpson designed a dress which, with a few deft touches, can be transformed into a correct morning, afternoon or evening frock. Not only is the new creation a money saver, it also makes for economy in wardrobe space and is a blessing to those to whom time is valuable. In these days when the shadow of depression has fallen across the world of clothes in common with the world of everything else, the three-in-one dress should be a sure-fire hit.

By ALICE ALDEN
NEW YORK, Sept. 24. — Enter the twenty-four-hour frock and jewelry to match. It comes to us via Paris, where it has been introduced not by some brilliant Paris designer but by the only American woman who creates clothes in Paris. She is Madame Annette Simpson and she is paid a dazzling salary by the conservative house of Mirande to be their head model. Strangely enough, Mirande does not have many American clients. She creates for such patrons as the former Queen of Spain, the Queen of Yugoslavia and other aristocratic ladies of continental

Europe. And they are all content to be dressed by an American woman who creates clothes that are utterly individual to their type.

Mrs. Simpson has not had an easy task to storm the citadels of fashion. But when it was discovered that she had a mastery of her profession, the leading designers in Paris accepted her as one of their own. She has had a large business here and says that her royal clients in Europe are far less fussy than many of the women whom she dressed here. All queens want, says Mrs. Simpson, is clothes that will intensify their good points and minimize their defects, and she insists that she has never been stared at through a lorgnette in the manner that Mrs. Park Avenue is apt to do. Just queens out to do their shopping and very nice and pleasing about it.

Although Mrs. Simpson is connected with a house that caters to a wealthy, fastidious trade, she has designed a frock that can be worn for morning, afternoon and evening, and be correct for each time of day and occasion.

She has with her in America, some perfectly grand models of her new idea. Thus a perfectly tailored frock of dull black silk steps out ready for the morning walk or shopping. It is semi-form fitting and has a shallow V neck. With it is worn a single strand of pearls. Comes lunchtime and then a matinee, Miss Economy takes a belt from her handbag and her dress becomes more form-fitting. A series of buttons permits her to open the sleeve to the elbow and a tiny ribbon inside the neckline allows the V to become slightly deeper. The tiny veil that was folded inside the brim of her hat is let down, and her trusty handbag again furnishes some more strands of pearls that can be added to the single strand and thus make it a more elaborate affair. And for an informal dinner, all that remains to be done is to roll the sleeves up still farther, where they button into a puff sleeve, and add a girdle of velvet in lieu of the belt.

Then some more strands and a most elaborate clasp to the neck-

lace and there you have Miss Economy perfectly dressed for the evening. Her shoes are black suede pumps, suitable for almost all occasions.

To an interested group that included men as well, Mrs. Simpson caught, fitted and pinned together a charming evening gown in considerably less than five minutes. It was an American adaptation of an evening frock of the Eugenie type. Incidentally, Mrs. Simpson explained that the Eugenie fashions were only for the young, slim and charming and that the mature woman should avoid them. She advises such women to be ultra-modern rather than to wear clothes that are picturesque or subscribe to some historical period. And above all, don't stick a feather in your Eugenie hat. The Titian haired Empress never did, but she caught an Emperor just the same.

BOWERSVILLE

About seventy-five friends and relatives helped Mrs. Carl Johnson remember her birthday Sunday

when they accompanied her home from church bringing with them baskets laden with good things to eat.

Mrs. O. E. White spent part of last week with her sister, Mrs. Harley Bryant of near Jamestown.

Mrs. Ruth Hiney of Detroit, Mich., spent the past two weeks with her mother, Mrs. Alonzo Johnson.

Born to Mr. and Mrs. Willard Clark on Wednesday a seven and one-half pound son, who will answer to the name of James Frank.

Mrs. Florence Emerick and little son of Dayton is spending some time with her aunt, Miss Rebecca Bowermaster and other relatives.

Mrs. Wm. Baker still remains quite ill at this writing.

Mr. Jesse Ary and family and Mrs. Julia King were guests of Dayton friends Sunday.

Mr. and Mrs. Wm. Gerard spent Sunday with his brother, Mr. and Mrs. D. L. Gerard. Mrs. William Perkins was also a guest in the Gerard home part of last week.

Mrs. Verner Beck of Columbus, is the guest of her parents Mr. and Mrs. Wm. Baker.

RARE ART PIECES TO GO
NEW YORK, Sept. 24.—An art collection valued at from \$1,000,000 to \$2,000,000 is to be sold during the coming season piece by piece, according to a recent announce-

ment. The collection, that of the late Thomas B. Clarke, includes twenty-nine works by Gilbert Stuart, among them the famous "Vaughan" Washington, painted from life.

There is no substitute for S.S.S.

Secure S.S.S. from your own druggist... with few exceptions druggists are ethical and conscientious, and will not offer a substitute.

No medicine has the same formula as this time-tested Blood Tonic... nor does any other concern gather the same roots with their own trained collectors and extract the active medicinal principles, unchanged, in their original fresh state—this is the secret of S.S.S. ... there is no substitute.

S.S.S. restores the appetite and builds up the red-blood-cells

TAKE S.S.S. as a tonic and notice how much better you will "feel" ... it has effect in aiding Nature to build red-blood-cells and creating an appetite for food. These two things working together aid the human body in its struggle for health and vitality. Millions of people approve its value.

Why not start taking S.S.S. today? ... the larger size represents a price saving.

They roll easier...
smoke better...
and stay put with P.A.

It's fun to roll your own with Prince Albert. Just toss some fragrant smelling P. A. into a makin's paper—spread it out and roll her up—and there you are! No fuss or muss or spilled tobacco—because P. A. is crimp-cut. That's why it rolls so trim and smooth. It stays put too — to the last satisfying puff. It's a grand smoke, Men. Cool as a jury hearing the evidence. Sweet as a verdict for your side. Mild as the milk of the coconut, yet with that full, rich character that rings the bell on every pull. Try rolling your own with Prince Albert — it's smart these days, and how delicious they taste. And in a pipe — there's simply nothing as satisfying as P. A.

2 full ounces in every Tin
No other tobacco is like it

—AND THE PAPERS ARE IMPORTANT, TOO. The perfect combination for home-rolled cigarettes: P. A. for filler and OCB for wrapper. The world's finest papers, made at the famous Bollore mills in France expressly for R. J. Reynolds Tobacco Company. Book of 150 leaves for 5¢. Buy OCB's with good old P. A. and you're all set to be satisfied.
